## Physical Description

- Height: 5'0"
- Measurements: 32B-23-34
- Mass: 105 Lbs.

Junko is a fairly standard appearing Neko at face value. She's an NH-33 with a solid physical build, more defined in muscle tone than average and stands at an adorable five feet tall. Her hair is a dark blue-black, cut at a practical and short with a creamy skin tone slightly tanned. Her eyes are a sharp, piercing and wholly synthetic shade of red. Her face is fine and chiseled, her features a mix of asian and slavic giving her angled features but huggable proportions. Her ears are elfin, without fur and without any crazy identifying features.

## Personality

Junko is a freshly created Neko, practically right out of the tube. She's largely still naive and curious, poking her nose at things and poking them to see what happens. She enjoys new experiences and learning hands on.

As herself, Junko is a driven protector with a deep sense of compassion. She wants to be the best possible soldier for the sake of her sisters, the Empire and its people. Without that, though, she believes she has little worth as an individual. This makes her tend to take risks and decisive action in the field. Despite any accomplishments, she feels like its never enough to validate her existence. Despite her insecurities, Junko is a stalwart soldier who would fight any odds to aid her fellow Neko.

## History
