

Mining Guild

The Mining Guild is a business based primarily in the [New Dusk Conclave](#) Formed in [YE 41](#), that deals exclusively with mining and everything to do with that profession. In order to honor the [New Dusk Conclave](#) originally, the Mining Guild had the New Dusk Conclave as part of its name, but while it does have locations on the capital world of [Sirris VI](#) it is not controlled by the government

About Mining Guild

The Mining Guild was created to fill a need that the [New Dusk Conclave](#) would soon find itself needing, in order to produce the metallic materials for the shipyards to produce ships, for their vehicles, and various other items of metal, and for the Jewelry stores to create their Jewelry from the gems that were mined. By creating the Guild and creating their own mines, they cut the cost of imports from the other Governments that neighbored the [NDC](#).

Formed in [YE 41](#), after [Nyx Pine](#)'s activation, and her seeking out a means to help her father and uncle's government, the Gynoid Princess encountered twins [Astrid](#) and [Aeta Kurosaki](#).

Their encounter with [Nyx Pine](#) filled an important need, namely the backing of the royal family, or at least one of them. With Nyx at their back, they began forming the Mining Guild, gathering the personnel chosen from the willing and able, from Refugees as they had been to to additional other Personnel, such as Yamatai expats alike, including a robot workforce.

[Nyx](#) and [Aeta](#) came up with ideas in order to help them like the [Mineral scanner](#), in order to detect the specific minerals which made the work much easier. They also made an agreement, that if they found a deposit that measured up to a typical home, they could individually keep it, but anything bigger than that was for The New Dusk Conclave to use as they wished, and they had to make sure that they were finding deposits for the New Dusk Conclave.

Motto

"From dusk we'll dig, for inside every world is the sun of a new dawn."

General Information

Here is some General Information

Mining Guild	
CEO	Astrid and Aeta Kurosaki , Nyx Pine
Faction	New Dusk Conclave
Product Symbol	MG

Additional pages

In this small section are links to additional pages that belong to the Mining Guild.

- [Mining Guild Company Operations](#)
- [Mining Operations](#)
- [Mining Guild Equipment](#)

Chartered

The following systems are [chartered](#) by the Mining Guild.

- [Draco Eridanus System](#)

Headquarters

The [Main Headquarters](#) is a large building in the downtown Obsidian City, close to the middle of the City itself.

Facilities

The Facilities of the Mining Guild are largely the [mines](#) themselves, but there are locations near the entrance and random tunnels that have bathroom facilities, as well as a mess hall filled with food and water for the Miners to consume as well as places to purchase drinks for later use.

Some facilities are the [Refineries](#) to process their ore to metals and their gem ore to gems, and they have Their Industrial shuttle to also carry their water concerns.

As of [YE 42](#) they have Engineering facilities for their tech needs, and their Engineering corps to build it.

Settlement

At locations too far from [Obsidian City](#), Arcadia, or [Amit Base](#), they have [Mining Guild Settlements](#), and lastly [DracoTown](#)

Products

The Mining Guild produces a vast quantity of refined metals and gemstones for a variety of future creations, whether that be Starships, buildings for cities, or vehicles. But this production isn't quite limited to those, thanks to a periodical partnership with the Department of Engineering, they can also produce technology for their own use, and for the rest of the New Dusk Conclave.

Products Manufactured by The Mining Guild

Products made by the Mining Guild are listed below.

Page	Manufacturer	Price (KS)
Gemstone Orchid	Mining Guild Emporium	15 ,100.00 KS

Below is a list of the gems that are mined and eventually sold to their partners. as a result of the Gems, the Mining Guild has a constant 1,108,254 for use. The metal gives them 24,520.1274 for use
