

Type 43 Yugumo Corporation Uniforms

The [Yugumo Corporation](#)'s uniform design. It became available in [YE 43](#).

History and Background

In [YE 43](#), it was requested that a standard uniform design be worked out for the [Yugumo Corporation](#). The [Yugumo Corporation](#) developed [Varihue](#), [Omnihue](#), and [Dataweave](#) as well as had manufacturing rights to [Self-Regenerating Fabric Coating \(SRFC\)](#), so it made sense that these materials would be included in the uniform design. [Kage Yaichiro](#), one the [Yugumo Corporation](#)'s [Fuku-Kaichō](#) had designed the [Star Army Bodysuit, Type 42](#) in [YE 42](#), so his design and expertise were consulted in the design of the new uniform as well.

[Ketsurui-Motoyoshi Katsuko](#) weighed in on the design and asked that the [Dataweave](#) be used to its potential by integrating the features that would usually be included in a datapad. She also arranged the use of [Kinugoshi-ko](#) from [Ketsurui Zaibatsu](#).

| Yugumo Corporation Uniforms | |
|-----------------------------|---|
| Year Made | YE 43 |
| Designer | Yugumo Corporation , Kage Yaichiro , Ketsurui-Motoyoshi Katsuko |
| Nomenclature | Type 43 |

| Yugumo Corporation Uniforms | |
|-----------------------------|--|
| Manufacturer | Yugumo Corporation, Ketsurui Zaibatsu (Kinugoshi-ko) |
| Fielded by | Yugumo Corporation |
| Production | Mass Production |
| Price | 300 KS |

Design

The uniform of the [Yugumo Corporation](#) incorporated the color design of the company's logo; purple, gold, and black. The design included a similar structure to the [Star Army Bodysuit, Type 42](#); which included a layer of [Dataweave](#) sandwiched between two layers of [Kinugoshi-ko](#). The innermost layer has an [Self-Regenerating Fabric Coating \(SRFC\)](#) coating for both fabric repair and wound patching, while still capable of wicking sweat. The middle [Dataweave](#) layer handles electronic functionality such as the built-in volumetric systems, and communications that interface with [KAIMON](#). The outermost layer has a hydrophobic treatment applied over the top of [Omnihue](#) dye. This is used so every part of the outfit can change color as needed and can deploy [MYPAT](#) 🌀 [Dazzle Camouflage](#).

Integrated [Aperture](#) Chipset - Lower back patch on both suit and dress uniforms.

Integrated Electronics Systems:

- Micro-Capacitors - charge wirelessly when within 1,000m of a [KAIMON](#) system.
 - Offers two days of power when outside of the range.
- [Dataweave](#) Volumetric projection interaction - Tactile-response volumetric interaction from

integrated communications and sensor components.

- Tactile Interface [Solid Volumetrics](#) create virtual datapad. (Includes; word processing and other useful applications)
- [Dataweave](#) Integrated Quantum Entanglement Communications compatible with [KAIMON](#) communications suite. (5LY maximum range)
- [Dataweave](#) Integrated scanner system similar to [KAIMON](#) sensor systems. (Limit 1000m)
 - Enhanced Visual Scanners (Line of Sight, Up to 400X)
 - Electromagnetic Scanners
 - Biomonitor (Monitors and reports vital signs of the wearer)
 - Atmospheric Scanners

Base Uniforms

Base Uniform Components for both suit and dress form factors. The suit jacket may be worn over the dress (generally with the dress's sleeves detached) to form a skirt-suit.

| Uniforms | |
|---|--|
| Suit | Dress |
| Uniform Shirt (Purple and Gold with logo) | One-Piece with Skirt (Purple, Black, and Gold with logo) |
| Uniform Pants (Black with gold piping) | Detachable Sleeves (Black) |
| Dress Loafer Style Shoes (Black) | Heels or Flatfoot Dress Shoes (Black or Purple) |
| Uniform Socks (Black or Purple) | Uniform Socks/Stockings (Black or Purple) |

- Alternative Footwear: Combat-style field boots are moderate cut synthetic black leather with [Osmiridium](#) buckles on adjustable straps that secure the boots.
- Gloves: Gloves are [Kinugoshi-ko](#) with a protective inner layer of [Yarvex](#) similar to the gloves found in the [Star Army Science Kit, Type 31](#).
- Belt (Gold): A standard buckle belt with a holster for an [Yugumo E2 Energy Pistol](#).
- Rank Pin (Left side of collar): [Yugumo Corporation Rank pins](#).

OOO Notes

[Andrew](#) created this article on 2021/02/10 15:00.

This was approved by [Wes](#) in this [thread](#).

Uniform design and illustration by [whyswan](#) commissioned by [Yuuki](#).
