The Ryasou'temygo (Death Wraiths) were the species that drove the former empire of the [Poku Saeruo Degonjo](#) to near extinction.

## About the Ryasou'temygo

The common Clan member of today knows the broad strokes of the history of the Death Wraiths, but precious few details about their appearance, their culture, or their technology. The specifics of those subjects are not taught in the [Ruohui Giba'te \(Academies\)](#). Instead, Clan members often find it sufficient to say that the Death Wraiths were supremely powerful, and they earned their many victories over the old [Qaktoro Empire](#). It is also notable that it was the allies of the Qaktoro Empire who provoked the Death Wraiths by attacking them. The Qaktoro Empire was drawn into the war by virtue of its alliances, and was brought to its knees as a result.

The Clan has not encountered signs of the Death Wraiths for the many centuries since a group of survivors led by Kotoz Mui fled [Otâgolisoy \(Birth world\)](#) as part of the [Norka \(The Exodus\)](#). Despite this, many of the Clain still see the Death Wraiths as a potential threat.

## Ismâo Ryasou'temygo (The Search for Wraiths of Death)

In [YE 43](#), the famous [WAP Yome Ismâopate \(Searching Hawk\) Plot](#) embarked on a clandestine mission to seek out signs of the Wraiths of Death.<sup>1)2)</sup>

## OOC Notes

- Article created by [Nashoba](#). Nashoba actually pulled some details he had written about the Death Wraiths in 2015, possibly because the article was a stub and he wanted to spend more time on it. As part of the 2024 project to update Nashoba's works, that 2015 text was brought back with the help of a deleted user, and this article was updated by [Hollander](#).

This mission was the last Yome mission that [Nashoba](#) ran before his passing. The plot was never completed.
