

Star Army Logistics Database

The [Star Army](#) Logistics Database is a [YSE](#), [faction](#)-specific [Struct](#) schema used by [Star Army Logistics](#) for tracking the hundreds of [Star Army Equipment](#), [Star Army Starship Classes](#), and other [items](#) with wiki pages.

Uses of the Star Army Logistics Database include:

- Tracking what items the Star Army uses and has available
- Helping determine when items should be reevaluated for effectiveness

Schema

The name of the schema is *starmy_logistics*.

Columns

Available columns are:

- saoy_supclass
- saoy_usage
- saoy_adopted_year (a lookup to the [Years Schema](#))
- saoy_reviewed_last (a lookup to the [Years Schema](#))
- saoy_item_retired_year (a lookup to the [Years Schema](#))
- saoy_itemcount
