

Places

Star Army is huge universe with over 600 unique places to visit, including star systems, planets, cities, military bases, shops, and many more locations. This page is the hub for finding them.

Note: Currently the staff is working on a vast quality update for all Star Army places, including using the new [Places Template](#), which adds information about the local population, an automated list of characters in the location, RP Opportunities, and local rumors. If you'd like to help ith this, contact [Wes](#) on the forum.

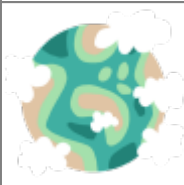

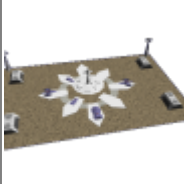

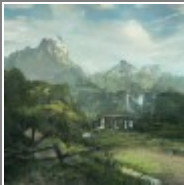

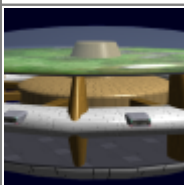

List Filters

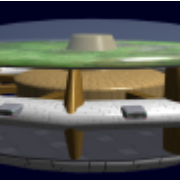

You can filter the list of places below by using these tag clouds to filter by faction or location type.

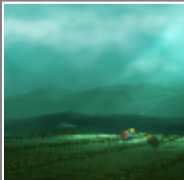

Places should be categorized by what they actually are, not what they happen to contain. For example, just because a planet or a military base has a restaurant, does not make those places a restaurant.

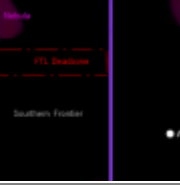

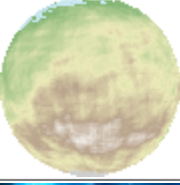

List of Places

This is a list of [canon](#) places in the Star Army universe. You can filter it using the search boxes at the top of each column.
