## Character Description

Risako is a [Star Army Intelligence](#) undercover operative that is only rarely in her own skin, as it were. Her appearance has changed much over the years of her service to the [star army of yamatai](#). Her original appearance was an average [pnugen\\_corporation](#) created [NH-17T](#) for the [Grand Star Army's Star Army Intelligence](#) with a height of 160cm (5' 3") tall and weight of 45kg (99lbs) with red hair, pink skin and with a horn protruding from her forehead. Her body has changed several times over the years along with her body's abilities.

### First Appearance in [ISC Lindorm 1.0: Glistening Scales of a Radiant Serpent](#)

"It's a safe to not trust anyone in our business," one of the other men leaning beside the shed finally spoke. He too was smoking a cigarette, the red ember of his butt cast an orange glow over his pale skin. He looked to be of average build, only standing a few inches below an even 6 feet tall, he also looked distinctly Nepleslian with his muddy red hair, piercing green eyes and metallic hand that peeked from beneath his jacket sleeve. He had the look of a farm boy with his flannel shift peeking from behind an open black jacket over denim and heavy black boots. "But it's damn good to be off that rock and finally have a smoke. I think that was the worst part of this whole process was quitting." He blew a smoke ring and held the stick between his fingers for a moment. "Under what rock did that... [Hachi](#) lady drag y'all from under?"

"Or would it be more appropriate to say, where did she scrape you off her boot at?" His gaze drifted to the [darker skinned man](#) and the [pale brunette](#) that seemed to just be waiting patiently for their Captain to arrive. "Risako, by the way." He idly waved his hand but did not move closer to [Fonz](#) or [Emilio](#). Nor had he accepted the yogurt from Fonz. "Hard to tell that lady, no... all those curves and a fuck load of rope to hang you with. Send ya to the gallows, grinning, that one... Ma warned me about women like her."

## History & Relationships

Created on the day in [ye 25](#) that [ketsurui chiharu](#) was killed over [Ralfaris](#) at the end of the [fourth\\_elysian\\_war](#) by [pnugen\\_corporation](#) as a [NH-17T](#) for the [Grand Star Army's Star Army Intelligence](#). She has been involved in many operations over the years as a clandestine agent.
