History

Family (or Creators)

Father: Gilligan Van Wulfen. Mother: Agatha Van Wulfen. Sisters: Olga, Ursula (deceased), Helga, Gilly, Agatha, Trinnie, Mike (Me-Ka).

Pre-RP

Krieger grew up the second oldest of his family, and the only boy. While he was outnumbered seven to one in terms of siblings, he was still well loved and was fiercely protective of his sisters, getting into more than one fight for them. It was a shock when he lost one of his sisters to a cave in. Just about to go and enlist, the community they were visiting to see some relatives suffered a cave in. The two, trapped as they were, were unable to escape or even help each other. Sadly his sister died of injuries from the rubble of the cave in before they could be saved.

After the cave in, he returned home and after mourning his sister's death, took part in his coming of age ceremony. The first task a breeze for him. The second, his fight with his father, was more of a formality than anything as he had been beating his father in thier sparing fights for a while. The third task was the toughest, as his mother wanted to make sure he was ready. Sending him out with the task of returning home with the pelts of three predators, all the while staying out in the wilderness and surviving off the land, Krieger eventually returned home with the pelts of three great predators, and after placing them at the feet of his birth mother, was given her blessing to join the military and welcomed into adult hood.

Since then he has decided to enlist and join as a combat engineer so he could learn as much as possible, so after serving for long enough he could return and make his home a safer place

Skills

Communications

Krieger is fluent in Abwehran and Trade, after contact with the Star Army of Yamatai, and knows the proper procedures to write reports and fill out military documents. He also knows basic operations of shipboard communications systems and standard military communication equipment.

Fighting

Being a nightwalker, Krieger is proficient in most melee and ranged weaponry. Adept in fighting with two weapons at once, he is learning to fight with a third, and one day hopes to fight with all four at once. While skilled with a sword, Krieger has begun using what could only be construed as a axe as his main handed weapon. He is able to fire and service most small and medium ranged weaponry, though he does enjoy the occasional big boom from large weapons.

Technology Operations

Krieger is able to use most computers and skin suits with little to no problems. Being a engineer, he has taken a liking some smaller handheld technologies, and whenever possible he enjoys tinkering, though more times then not he can never put them back together. Krieger has also been trained in ship based weapons systems, and when needed is able to operate the systems.

Mathematics

Krieger has taken his mathematics course, and though he absolutely loathes them, he is still proficient in algebra, trigonometry and calculus.

Demolitions

One of the few things he gets excited about, Krieger is a skilled demolitions expert, enjoying creating the explosions and seeing the destruction. He is able to make everything from large to small explosives, and is able to make it at most any yield should he have the right components. He can place the explosives also to help maximize the effect.

Engineering.

Krieger knows his way around most engineering situations, helping him with his demolitions. It allows him to look over the structures. With this understanding, and his formal training, Krieger is able to help with most situations that would arise with a need for engineer.

Cooking.

Being the only boy and surrounded by nothing but girls, Krieger picked up how to cook. Able to make a wide range of dishes, his friends at first made fun of him, until they tried some of his cooking. His mother mostly taught him, and the teachings stuck.

OOO Discussion

Krieger has a bit of a gravelly voice due to the cave in. The voice in his head sounds like the voice of someone narrating a old school police Noir film.
