- **Dislikes:** The Yamataian empire, and the Clan based political system it uses.
- **Goals:** Her main goal is the same as Prince Hassan, the dissolution of the Yamataian empire and it's Clan based political system.

History

Family (or Creators)

None of note. She may have family, or relatives of some sort. But she doesn't know.

Pre-RP

Doppel is actually [Nosaka Mamami](#) former fleet captain and then senator for the United Outer Colonies. When the NMX invaded after the Motoyoshi Clan disappeared from the council, Mamami bolstered the remaining Peacekeepers located at the [Shugosha System](#) to defend until either help arrived or they were killed to a man. She was relieved when she received confirmation that both a detachment from the Star Army of Yamatai]] and the Lorath Matriarchy were being dispatched, though further details about the reasons behind both upset her.

It was shortly before either force arrived that she also received a communication from the Independent Worlds League, and in particular Prince Hassan himself. The exact details of the conversation was left to time, but Mamami and one fourth of the soldiers she had collected agreed to join him.

Mamami abandoned her name, life and history. Allowing the Hacker Cult to hunt down and erase everything that was her. From that rose a nameless woman, a faceless, history less former person.

OOO Discussion

I kept it as vague, or at least, as conjecture as possible while giving enough details to allow for interaction should she be used in an NPC fashion.

Doppel is a new favorite of mine.
