## Physical Characteristics

Height: 5' 7" / 170.18 cm Mass: 132 lbs / 59.87 kg Bra Size: 32C **Build and Skin Color:** Aiaru has a very wiry frame, not under muscled, but still a little under average in height and weight. She has well tanned flesh colored skin.

**Eyes and Facial Features:** Her eyes are a light grey-blue, almond in shape. She has a small, round face, with smooth features.

**Ears:** Her horns are fairly normal, and are a dark brown in color, blending well with her hair.

**Hair Color and Style:** She has blue-black hair, which is long and straight, including the bangs, which she keeps long, but out of the way most of the time.

**Distinguishing Features:** Aiaru has a tattoo of a night sky scene on her back, of a cloudy sky with just a few stars poking through.

## Psychological Characteristics

**Personality:** Aiaru is a quiet but friendly person, seldom the first to initiate a conversation, but not unwilling at all to talk. She's a very touch-based person; she likes to be in contact with people when she's talking to them, regardless of her relationship with them. She's reasonably passive in her interactions with others, not really big on conflict, but she's a realist at heart, so she understands that conflict is unavoidable at times. Aiaru is very openminded about most anything.

**Likes:** Friends, quiet time, flying **Dislikes:** Overly aggressive people, and not much else. **Goals:** Aiaru doesn't want much out of life at this point, just to meet people she likes and find a more solid, tangible goal.

## History

### Family (or Creators)

- Kasia Dahra (mother)
- Jarryd Dahra (father)
- Samir Dahra (brother)
- Bayyan Dahra (brother)

- Ilanah Dahra (sister)

## **Pre-RP**

Aiaru's family wasn't anything out of the ordinary for an Eyr Ranr. She grew up among a large family, with several of her parent's lovers and their children all on the airship as well. Thanks to this, she never lacked for friends or people to play with growing up, and they actually got a decent education because of the number of children on board. Being a quiet person, she took up liftboarding to find a way to get alone time when she was overwhelmed by the number of people. That was about when she discovered that she REALLY enjoyed flying when she could control things herself, even more than she liked flying normally.

Aside from her quiet time liftboarding and her time in the group where she learned a decent array of magic tricks, Aiaru was remarkably restrained and quiet for her people, being much more of a background person. Once she was old enough to start thinking about moving on, she decided to try to become a Frame Runner, and indulge her recently arrived wanderlust.

## **Skill Areas**

### **Fighting/Physical**

Aiaru is proficient in both defensive and offensive hand-to-hand techniques as well as the use of several hand weapons, including knives, pistols, rifles and light explosives such as grenades. She is in excellent physical form, with sufficiently high endurance to survive situations such as elevated G-forces.

### **Technology Operation**

Aiaru has had extensive courses in the use of NI systems aboard the Organoid craft employed by the Astral Vanguard, and understands how to properly utilize her own entry ports to interface with compatible systems. The use of standard-issue electronic devices and conventional computers have also been a part of her education.

### **Communications**

Aiaru is capable of using all standard communications found in the Iromakuanhe Astral Commonwealth, in particular those employed by the Astral Vanguard. This includes laser, radio and MASC-enhanced variations in various formats and media. She is fluent in Saalsari and Haidasari, and can speak, read and write it correctly. She can communicate clearly even while under fire or in other unnerving situations.

### **Medical**

Aiaru is capable of basic medical techniques, including everything up to first aid, emergency care such as CPR or the Heimlich maneuver and the administering of preprepared medicine, such as painkillers or stimulants.

## Leadership

Aiaru has learned the essentials of tactics and command, but has not achieved the required level of mastery to put himself in a command position. However, she is capable of giving and following tactical orders quickly and efficiently in combat scenarios and can follow the command structure of her unit or wing while under highly stressful conditions (combat, etc). She is capable of making use of the information given to her (tactical maps, target statistics, marked targets, etc) and finding relevant information to send to the rest of his unit.

## Vehicles

Aiaru has advanced comprehension and practical ability in the piloting of a Powered Frame unit, capable of flying under most conditions and operating all of the onboard weaponry safely and efficiently in combat scenarios. She can make complex battlefield maneuvers while under high stress (combat, etc) and adjust her movements to compensate for all logical combat variables (gravity, weapons fire, atmospheric conditions, etc). She understands the basic functionality of her machine and can make basic repairs to certain subsystems.

## Rogue

In a seemingly complete turnabout from her personality, Aiaru has spent a lot of time learning magic tricks, from juggling and other stunts, to rather basic "magic" like card tricks and making things disappear. She somehow manages to perform these tricks well in front of people, despite her quiet nature.
