## History

Mort Masterson was born in AR 921.

Mort's escapades began all the way back in primary school, when his wanderlust truly started to manifest. Mort would skip days, sometimes weeks of school just to explore the seaside and coves nearby Port Avynna. at the age of 14, he was enrolled at the local military academy, and at first it seemed his curiosity and thirst for adventure would be quelled by the military life, but this was not the case. Mort used his time at Avynna academy to plot the beginning of his life as a agent of fortune. Learning all the

skills he would need to survive on his own in the vast emptiness of space. he also took this time to scout out his plan of escape, an old Vayu-class scout frigate that was a used to teach aspiring pilots and captains the very basics of life in space. The Academy was also were Mort met Li'ray No'sun, daughter of the distinguished Admiral Horton No'sun. the two were the best of friends, though his own naivete and aloofness never saw Mort's relationship with Li'ray pass that point, both were content with this type of relationship. On the night before graduation, Mort enacted his plan to steal his new ship witch he christened the INDOMITABLE and set sail for winds of fortune, but on his way to the Academy's hangers he ran into Li'ray. Upon telling her what he was doing, she urged him not to, reminding him that desertion was a capital offense and he could be killed for such an act. Mort acknowledged Li'ray's concerns, but explained it was some thing he just had to do, inviting her to come with him. She declined, warning him if he did this, he would be a marked man for the rest of his days, and if their paths crossed again once she was a soldier, she would be duty bound to turn him in. Mort's final words to Li'ray No'sun were "well, i cant wait to see you again"
