History

Family (or Creators)

Pre-RP

Mylehsa's a new Aria, run with a few minor firmware upgrades to patch security holes and fix some minor bugs. She has some minor custom features, including most noticeably her wings, and her better then average volumetric projectors. She still has that New Aria smell

Skills

Communication

Mylehsa is able to speak and communicate in Lorath, Yamataian, and Nepleslian. She can use various forms of communication including radio, and is capable of issuing and receiving orders under fire.

Technology Operation

Mylehsa is skilled with the operation of technology and is compatible with most forms of computer, which she can plug into to recover data from. She can hack any computer she's plugged into, given sufficient time and recalling that sufficient time may be years, and that the computer she is hacking may have defenses that would take her out in the meantime.

Starship Operation

Mylehsa is trained in all of the skills necessary to operate the starship she is intended to be part of, including navigation. She's not designed to operate the star-ship from a control panel, she's designed to operate it from inside. Presenting her with a star-ship control panel would just confuse her.

Mathmatics

Mylehsa is skilled in mathematics. She is programmed to be able to calculate anything that needs to be

calculated, and has hardwired lookup tables for rapid calculation of certain commonly used numbers (Like pi and e)

Knowledge

Mylehsa can access many libraries worth of fixed data. After accessing this data she can project or read it out loud. Just because she knows something doesn't mean she understands it though. Understanding something means that you use it as part of your view of the world without prompting or being reminded to factor it in.

Combat

Mylehsa is trained for hand to hand, weaponised, and ship to ship combat and is capable of utility in each form. She is a fairly mechanical/robotic fighter when fighting hand to hand, and she was not designed to it. In other words her hand to hand combat is formulaic. Her ship to ship combat is much more robust, but benefits from living intervention.

Entertainment

Mylehsa possess the ability to sing songs, dance, and create volumetric projections for entertainment purposes. She has some games installed on her system, including a role-playing game, a poker game, and a few others.
