Physical Characteristics

- Height: 6'5"
- Mass: 125
- Measurements:

Build and Skin Color: Tall and thin, Gabriel is a nearly perfect example of an Elysian Caelisolan. Belying his rather light weight he is immensely strong and has been known to throw smaller beings around as though they were toys. His skin is a fairly healthy looking white with a hint of some tanning from exertion in a sunlight rich area

Eyes and Facial Features: He has bright red eyes that seem to pierce right through whoever they are looking at. He has a regal looking face he looks like he could be a king of some long lost angelic dynasty.

Ears: Fairly even round ears and no major distinctiveness.

Hair Color and Style: He has surprisingly well groomed flame red hair which while cut short has the appearance of being an only somewhat contained wild fire.

Distinguishing Features: Should be obvious, his flame red wings. He's trained long and hard and has managed to strengthen them to the point where he is capable of limited flight even while carrying weapons and in light armor.

Psychological Characteristics

Personality: Gabriel for a time was subservient due to being born into the ranks of the plebians, however now since he has received the new and improved Caelisolan body his confidence levels have soared and he now believes that he can face Yamatai. He sees Yamatai not as a savior or ally but as an enemy to all Elysia and this perhaps mistaken belief led him into the arms of the NMX to join them as a collaborator and to attempt to bring more of his people into the fold.

- **Likes:** Women, Weapons of all kinds, fighting against Yamatai,
- **Dislikes:** Yamatai,
- **Goals:** To see Yamatai either erased or subjugated so that the Elysian people can rule themselves again with the assistance of the NMX

History

Family (or Creators)

Lariel-Mother Israfel-Father Aetian-Teacher

Pre-RP

Gabriel is a powerful warrior of his people earned through struggle and strife due to his raising as a plebian for the first century of his life, being raised to having the Caelisolan body significantly improved him. He is over a century old and has the experience of many other being's lifetimes. During this time he saw four separate wars with Yamatai. Every single one of them being a horrible defeat for his people. This has left him embittered against anything and everything made by the Yamataian space empire. He will begrudgingly use equipment made by them but prefers that made by either his own people or for that matter anyone else. He has recently joined the NMX and since he is so new he has not had a chance to prove himself to them. However he plans to fix that as soon as possible.

Skill Areas

Communication

Gabriel is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, starships, power armor, and shuttles in both combat and non-combat conditions. Gabriel is fluent in Seraphim, Nepleslian and Yamataian. He can speak and write both correctly and efficiently and can write reports, fill forms, issue orders under fire, etc. Seeing as how he is a Caelisolan he is capable of communicating telepathically at a distance of at least 3.5km.

Fighting

Gabriel received intensive infantry training and is highly proficient in the use of the [Xiphos Infantry Blades](#), [Phaelaes War Spear](#), [Aspis Infantry Shield](#), [Atromos Particle Beam Rifle](#), [Dresde Under-Slung Grenade Launcher](#), [Sersis Variable Pistol](#), [Sperion Mini-Grenade](#) and [Pelphrys Particle Pulse Autocannon](#). He has also been trained in [Pankration](#) throughout his education and is adept in it. Since he is a Caelisolan he is well trained in the use of the [Hikael Power Armour](#).

Maintenance and Repair

Gabriel is trained in the ins and outs of his [Hikael Power Armour](#), and is capable of doing minor repairs in the field, with the proper tools, of course. he is also capable of diagnosing and fixing minor problems in most Elysian weaponry, once again with the proper tools necessary, however.

Survival

Gabriel is trained to be capable of surviving on his own in the outdoors. He is capable of building shelters and starting fires when necessary. He is capable of finding food in the wilderness, and capable of finding his way if long travel is needed. He has also taught himself to build his own camouflage when he needs to find somewhere to hide in order to escape Yamataian military detention.

Demolitions

Gabriel can identify, manufacture, handle and dispose of explosives. With the proper tools, he can detect and disarm enemy explosives as well.

Strategy (Tactics/discipline)

Gabriel can understand and give out tactical commands and work with his troop to follow those commands efficiently. He knows the importance of teamwork on the battlefield, has been intensively trained in discipline and morale, and is able to recognize the command structure even while under extreme pressure (combat, etc). Gabriel is able to recognize ambush points. He knows basic math in order to calculate distances, etc, and can use a tactical map.

Physical

Gabriel is not only a skilled hand-to-hand fighter with the innate grace to make his practicing of Pankration look almost as though he was performing an elaborate and deadly dance, but also one of the few Elysians that have trained their wings for flight. He is capable of intense flight for a half hour, and can "cruise" for about two hours before he needs to rest; going longer would result in extreme exhaustion, possibly even fainting. Gabriel is also a rather skilled dancer, having spent a number of his younger years learning to dance and retaining that muscular memory even through the transfer to the new Caelisolan body and retraining his muscles to react the way that they should with his motions.
