::: REDACTED :::

Pre-RP

Initially recruited because he was convenient to infiltrate a terrorist/rebel group. Did well, but grew overconfident, went in for his second infiltration assignment and barely came out alive/got people killed. Gets placed in a more commanding role after his third infiltration and he's able to use his experience to guide others and keep them from cocking up like he did once. Finally took command of the agency all of a sudden when something happens to the old leader, despite being nervous he leads the agency well in a time of crisis. Keeps the job when he's done.

OOC Discussion

Build for head of Or'ion, History is redacted on purpose, history should be unavailable for the head of such a group.
