In YE 29, the Cruise ship was in the taie system delivering colonists when the SMX Attacked. During the attack, Kassel's parents forced her into an escape pod, telling her to save herself. She watched helplessly from the pod as SMX ships destroyed her home, but somehow managed to escape unharmed. In the years following that, she used her skills in piloting starships to work a few odd jobs, until finally she was picked up by an odd Yamataian woman, who offered her a job at Origin Industries. Kassel's skill saw her rise in ranks until she was given command of a ship.
