Character Description

Born in YE 16, Sera is a very independent young woman. Sera is a little on the shorter side, with light brown skin and almond-shaped eyes. Her jet-black hair is kept cut rather short, coming just past her eyes, usually in a bit of a messy state. She is very active and social, and likes to make friends. She has a strong work ethic and is very good at handling children, but not exactly in a motherly way.

History & Relationships

Sera Vershan is the second oldest child in the Vershan family. Orphaned soon after the youngest member was born, they survived on their own on Nepleslia for a time before the eldest sister [Meena Vershan](#) was able to land a job with Origin Industries. As the whole family grew up, Sera was the second member to become old enough to get a job, choosing the same path as her sister and joining Origin Industries.
