## Physical Characteristics

Height: 5'6" (165 cm) Mass: 130 lbs. (59 kg) Measurements: 34-25-36 (85-62.5-90) Bra Size: 34B

**Build and Skin Color:** Petite, curvy frame, with a sleek muscular toned athletic build, but not too muscular like a body builder. Angela has a curvaceous and graceful figure; her frame boasts femininity and sexuality. She is nicely shaped, and toned into petite curves. She has a natural olive-hued, medium tan Caucasian skin. Angela is surprisingly tough despite appearances. How she manages to maintain such a – for lack of a better word – sexy body and while still retaining muscle enough to put her hand straight through solid stone remain a mystery.

**Facial Features and Eye Color:** Angela has a youthful and beautiful, somewhat rounded Asian face dominated by perfectly spaced almond-shaped bright sapphire blue eyes and sensuous full ruby glossed lips. Her face bears the oriental facial features of a Chinese/European mix. An elegantly curved nose adorns her face. She has fine dark eyebrows, though those are hidden most of the time under her hair.

**Hair Color and Style:** Angela's hair is jet black with white highlights, and is long and curly. It hangs in layers that cascades to her middle back, the extra length usually found tied back into short ponytail/French braid or a tight bun so that her hair cannot be grabbed in combat or get caught on equipment or machinery. However when off-duty, she will sometimes let it hang loose, giving her hair a long, flowing appearance. Angela's hairstyle includes a trimmed frontal fringe that comes down evenly just over her eyes and 2 long bangs that hang at either side of her face. One side of her bangs is usually tucked away behind her left ear, but the other hangs loose, partially covering the right eye. Angela cares for her hair well and will typically shampoo and brush it extensively to give it more luster and shine.

**Distinguishing Features:** Wears a small pendant with piece of polished obsidian encircled by a golden ring. When showing enough skin, her genetic tattoo on her upper right arm in the shape of a black sword with a rose entwined around the blade is visible. This is usually hidden by sleeves of any kind though.

## Psychological Characteristics

**Personality:** She has a personality of many depths, much like any person that has any self-meaning. On the exterior she is always calm, cool, and collected. Once she begins to speak, people will notice she has an upbeat kind of behavior but not childish like. Angela is always thinking positively and has hope for better things. She has proven tough determination and ambition while undergoing training and schools.

**Likes:** Privately training herself, good books, seafood, learning new things, traveling, and wearing exotic clothing **Dislikes:** Paranoid people, slavery, flying insects, crime, onions, and doing nothing **Goals:** To be remembered, to become perfect, to explore the farthest parts of the galaxy and beyond

## History

## Family (or Creators)

David Hitomo, a Geshrin (Father) deceased - 38 yrs old at time of death (Power armor pilot)

Qali Hitomo, was a Geshrin now a NH-22/Yamataian (Mother) alive - 39 yrs old (Starship engineer)

## Pre-RP

Angela was born an only child, a Geshrin, to David and Qali Hitomo early into the year [YE 13](#). Her hometown is Yumiuki, Yamatai where she had a normal childhood. Her father, David, was in the Star Army and participated in the [Battle of Hoshi no Iori](#). Like so many other brave fellow soldiers, he died in the fighting. Angela's mother, Qali, believing it to be the abilities of being a Geshrin, vowed that she will make her family stronger. She taught and encouraged Angela to be the best. Believing she must set an example for her only child, she became a NH-22/ Yamataian in YE 28. Angela joined the Star Army as soon as she was able to, believing that that would be the one place where her skills could be made of service. By the early of the year [YE 30](#) she attended basic training. Angela opted to be transferred in a NH-29 Neko body. Believing it will make bring honor to her family. For reasons she never understood but was infinitely grateful for, the Star Army identified her as having potential of some kind and placed her in a course at the [Star Army Intelligence](#) Training Facility, located in [Mezerit](#) to provide the Star Army with crewmen who had unique skills. She actually did fairly well at it, learning about various subjects and engaging in intensive training. And in [YE 31](#) she finished her training and is currently awaiting assignment to the [YSS Genei](#) and hopes to eventually find her true potential.

## Skills

### Communications

She has the capability to quickly learn new languages which makes her a natural linguist. Angela is fully fluent in five languages, including Nepleslian, Yamataian, Saalsari, Seraphim, and Abwehran. She is able to speak, read, and write all of them correctly and efficiently and can write reports, fill forms, issue orders under fire, etc. She can operate most common communications systems available to her, including text and sound based transmissions gear, in a variety of transmitter types. She is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other people through headsets, telepathy, starships, power armor, and shuttles in both combat and non-combat conditions. She is also trained in Encryption/Decryption. In addition, she is also able to use non-verbal communication systems (hand signals, flashing lights, etc.) Angela is a very good speaker, albeit a less than inspirational one and knows how to use the right words to get what she needs. She is telepathic, but only uses it if she tried all other means of communication to no avail. She is capable of communicating within a 155 mi. (250km) radius.

## **Fighting**

She has received the basic hand-to-hand combat training, followed up with a rigorous, intensive hand-to-hand combat training program. The drills have been pounded into her head over and over until it was almost instinct. Angela has received extensive training in the art of fencing and Ninjutsu. While not an entirely practical skill, it does give her a certain advantage in close quarters combat. She also did follow up training in melee combat using swords and other exotic melee weaponry. She's completed training with most small arms, power armor, and making and using improvised weapons and explosives. She is highly trained in pistols of all types, bladed weapons, grenades and rifles of all kinds and is capable of using thrown explosives. She is skilled in fighting in zero-g environments and planets with gravities up to two G's.

## **Technology Operations**

Angela is a multi-talented jack-of-all-trades when it comes to starship operations. She has extensive knowledge in how to pilot a starship, use its communication array and to properly operate with its electronic systems. Furthermore, Angela interacts with artificial intelligence very well, allowing her to enter and process information much faster for any tasks from searches to having it assist her to automate ship functions. As a SAINT operative, the ability to operate technology quickly is a vital skill. She is an expert at utilising the ship's computer for data entry, searching, organization and retrieval. Moreover, she is a skilled programmer and a dangerous hacker when the situation warrants her peculiar talents.

## **Mathematics**

Angela is properly educated in algebra, trigonometry, advanced calculus, and is fairly familiar with quantum mechanics and dimensional theories. She knows accounting and inventory, and has sufficient skills to account for her starship operations capability. Angela can effectively run an operation and keep tabs on everything without too much trouble, provided that she's given all the relevant information.

## **Knowledge**

Angela is a very smart and scholarly individual. One might say she is a true believer in the power that knowledge and the pursuit of knowledge hold. She is amazingly gifted with a dedicated procedural memory towards her profession. She has a basic knowledge of History and Law acquire both in her schooling and constant reading.

## **Physical**

Angela was in excellent physical shape even before the military. Starting from her gymnastics classes in childhood, where she specialized in the uneven bars, Angela has followed a strict strength-training regimen that has only been enhanced by her time in the military. She still retains much of her childhood

training and incorporates gymnastics practice into her workouts. Her level of fitness is something in which she takes considerable pride. She regularly exercises on top of that to keep herself in good condition. She is known for remarkable flexibility and dexterity. Even in uncomfortable clothing and armor, she seems to have some amount of grace in her movements. One recruit mentioned off-hand during basic training that she could be a dancer.

## Survival

Her training taught her the basics; Life support, finding or making shelter, obtaining food and water... as well as different hazards depending on the environment she would be theoretically 'stranded' in, but she also learned a bit of it before hand from having to live on the streets. She learned during basic how to survive in hostile environments. She can build shelters, hunt and forage for food, read a map, builds a fire, etc, none of which she would have learned where she lived. She also can camouflage herself, and actually did quite well in doing so. She also learned a little bit about guerrilla warfare tactics. She also has a bit more endurance than most her age. Mostly from withstanding wounds and her constant push to better herself. Camouflage is an actual fun thing to make, but she won't tell her unit that while she helps it.

## Inventory

### Clothing

#### Duty Uniform

- 3 [Duty Uniforms](#)
- 2 pairs leather [Boots](#), dark gray
- 1 pistol belt, leather, dark gray, with holster for service pistol

#### Uniform Insignia

- 1 Rank Pin [Santô Hei](#)
- [Fleet Insignia Patch](#) on left arm of each duty uniform
- [Star Army of Yamatai "Star Army Hinomaru"](#) patch on right arm of each duty uniform

#### Undergarments & Workout Clothes

- 3 Complete [Exercise Uniforms](#)
- 4 additional black sport bras/swimsuit top
- 4 black panty
- 8 pair of black boot [Socks](#)
