## History

### Family (or Creators)

Cappadocia (mother) Abraxos Nahirios (Father) Sariel (Oldest Sister) Esther (Second Oldest) Laylah (Third Oldest) Hayyela (Fourth Oldest)

### Pre-RP

Euphemia was born the youngest of 5 girls in the Plebian class. Her father was a cook while her mother worked in construction. Her mother hated the work she did and tried to instill resentment of authority and order in all of her daughters. It worked by the time Euphemia was 10 Cappadocia and her 4 eldest daughters ran away from home and the rigid class system of their homeworld.

Meanwhile Euphemia and Abraxos stayed at home. Her father worked as a loyal cook to a very high ranking Senator since Euphemia was nothing more than a bump in her mother's belly. Euphemia grew up in kitchen she never went hungry thanks to her father constantly using her as taste tester and occasional leftover disposal for the senator's meals. The senator grew to like his head chef, when the Caelisolan program was started he put Abraxos and Euphemia the (only loyal daughter) on the high priority list for a new pure body. Her father saw this shift as a second chance for his daughter he insisted she learn something other than cooking so that she could get ahead in life. She began reading everything and anything, she took to three subjects most of all: xenobiology, sociology, and linguistics.

Unfortunately as she progressed in her knowledge she saw just how wrong the caste system was. Euphemia needed to get out. She ran away, to the first open space she could find, the Yamatai Star Army
