Physical Characteristics

- Height: 5'7" (170cm)
- Mass: 117lbs (56kg)
- Measurements: 35-24-35 (30D)

Build and Skin Color: Frejja is on the tall end of the Neko spectrum, and she has the hourglass figure a human would kill for. Her bust size is slightly larger than most Neko, and she has wide hips with a round, shapely bottom. The young Nekovalkyrja's skin is sky blue, a touch lighter than the color of her Infantry uniform.

Eyes and Facial Features: She has an oval face and perfectly symmetrical wide-set almond-shaped eyes. Her eyes are a brilliant emerald, with long well-defined eyelashes and neatly groomed arched eyebrows. Her face is adorned with a cute little upturned nose and a generous mouth. Her full lips are cerulean, almost the color of the ocean.

Ears: Frejja has long, pointy cat-like ears covered in soft white fur with a black lynx pattern and small, black tufts on the ends.

Hair Color and Style: Her soft, wavy hair hangs several inches below her shoulders, curling slightly at the bottom with strands parted over her left eye. The color is a lovely shade of violet. She wears her hair in a short ponytail while on duty.

Distinguishing Features: She has a long white tail with a pattern of black spots and a series of six pink dots down her back where her SPINE interface is. Serial number under right foot.

Psychological Characteristics

Personality: Frejja's exposure to other Nekovalkyrja has had a major effect on her personality. Originally she was shy, quiet, and unerringly serious. Making new friends on the Orochi and then being assigned to the Eucharis with them has allowed her to develop into a gregarious, friendly, and sometimes even jovial person. At times, there is a glimpse of that shy young Neko she used to be. Her relationship with Junko is allowing her to explore this newfound boldness. In combat, she can be reckless, and she would gladly sacrifice her life so that her friends and teammates can survive to complete the mission.

- **Likes:** Winning, robotics, cute furry animals, shounen anime, astronomy.
- **Dislikes:** Overly serious personalities, "immature" humor, losing, slimy/"gross" animals.
- **Goals:** Her primary goal is to be respected and famous for her feats in battles against Yamatai's enemies. Secondly, her goal is to protect her friends and help them get stronger as well.

History

Family (or Creators)

Created by the [Star Army of Yamatai](#) at the [Nataria Fleet Depot](#)

[Fumiko Yuuki](#) - Daughter

Pre-RP

Manufactured in June YE 37, her entire life has been spent training to be a soldier. She easily empathized with her sisters during training, encouraging them to do better. Her fellow trainees saw her almost like a den mother. Early on she demonstrated a dislike for losing, so she pushed herself hard to get higher scores. Her impressive skills piloting a Mindy power armor earned her an assignment with the Eighth Standard Fleet to gain field experience.

Orochi Squadron

Late YE 37, in the Jun system. Frejja is on the YSS *Awaji* when NMX raiders attack. Her squad was destroyed by a barrage of missiles. She was unharmed, although the loss of her squad forced her to team up with a Mindy squad from YSS *Orochi*. They broke through the enemy defenses and boarded a NMX Pillager to rescue prisoners captured by the NMX raiders.

Skills

Frejja is trained in all [Star Army Common Skills](#). In addition to those she has learned the following.

Demolitions

In early YE 39, Frejja spent three months learning everything Jackson Howard knows about demolitions. Her knowledge has yet to be tested in the field but with the war with the Kuvexians heating up she will soon get her chance. She does not know how to make explosives, although she is knowledgeable about disarming bombs and using explosives to clear or create obstacles.

Robotics

Currently more of a hobby than a skill, Freyja has basic knowledge of robotics. She could not assemble a robot from scratch, only repair minor damage. She knows how to issue commands and navigate user interfaces on common Star Army robots. At some point she hopes to learn how to build and test her own custom units for use in the field.
