Physical Description

Haruka physically embodies the quintessential emo/goth girl. Her eyes are a bright yellow, often filled with mild boredom and derision. Her skin is very pale and she uses black makeup and lipstick to emphasise her features. She sports big fluffy fox/cat ears, with black outsides but white fur insides. Her black hair falls to her shoulders, but is sometimes tied up as required. Haruka wears dark or metallic jewelery, such as necklaces, rings, earrings and bracelets. She stands at a respectable 5'11, as a 33A Neko, often far taller than her peers. Her bust size is greater than most non-33A Nekos, around a DD.

Personality

Haruka seems on the surface as being unimpressed by everything, to be lazy and unmotivated. In reality, she's just very efficient at her job and ends up with lots of spare time with nothing to do. She loves metal and classical music, dark coloured clothing and jewelery. She resents having to wear PPE as part of her job, but is more than happy to point out when others are lacking. She greatly enjoys extreme sports, adrenaline-fuelled activities and anything that gives a lot of serotonin.

History

Haruka's family name is Shiroyama, which belongs to a family very close to the [lemochi Clan](#). She was born to a father and mother who were both employees of [lemochi Innovations & Sales](#). Raised a [Minkan](#), she was always rebellious in one way or another, enjoying being herself regardless of what others thought. Rather than joining [lemochi Innovations & Sales](#), Haruka decided to do a stint in the [Star Army of Yamatai](#) first.

Being that she was raised with the intention of being a salarywoman, Haruka took to logistics and clerical work with absolute ease. Rather than being placed in a different MOS, she was selected to be a [Star Army](#)

[Unit Supply Specialist](#) for a part of the [YSS Shinigami \(NG-SF-01\)](#).

After starting, she quickly settled into the role and was able to perform logistical tasks that would take others quite a while, in far less time. This means she is often seen relaxing, mildly bored, waiting to clock off.

Seeing action aboard the YSS Shinigami, Haruka served as part of a Damage Control team when in combat. The rush from running into the fire, dragging people out and saving lives awakened an adrenaline junkie within her. As the YSS Shinigami was removed into a much safer role than the assault on [Skadi](#), Haruka requested a transfer to a ship that she thought was more likely to give her the rush she wanted, the YSS Koun.
