Physical Characteristics

Height: 5' Mass: 95 lb Measurements: Bra Size: C

Build and Skin Colour: Tio has quite pale white skin, and a slim build. A bit shorter than average for a Nekovalkyrja, she's still far stronger than she looks, like most of her kind. Despite her constant physical training she's maintained a rather significant bust, for an athletic Neko, anyhow.

Facial Features and Eye Colour: Tio has a pale face with a somewhat delicate look to it. She rarely smiles, and when she does it is usually rather small. She has generally oriental features. Her yellow eyes are rarely looking one place for long, unless she's asking a question.

Hair Colour and Style: Tio wears her blue hair in a rather short page boy cut to keep it out of the way in battle.

Distinguishing Features: Tio has a genetic tattoo imprinted on her left lower back imprinted with her manufacturer information and serial number.

Psychological Characteristics

Personality: Tio is rather quiet and quick to obey orders, though very inquisitive. If she doesn't understand the reason behind an order or the order itself she is quick to ask for clarification. She has rather limited experience with others, and tends to be rather polite and formal. Still, she can be impishly

playful if she feels comfortable, or particularly when she's tired. She is very determined to serve and fulfill her duty to the Star Army of Yamatai for her creation, and to find a larger purpose in her life. She does not consider herself particularly important, when compared to others, but will be quick to offer aid to another...so long as it does not prevent her from completing her orders. She will not disobey any lawfully given order, though if she considers such a truly poor choice she may ask for clarification in an attempt to get her commander to choose a better course.

Likes: Powered Armor, Training, Learning, the Thrill of Battle, Order, Trying new things, Loyalty **Dislikes:** Those who disobey orders, Chaos, Fools, Cowards, Lazy people **Goals:** Find a purpose beyond serving the Star Army of Yamatai. Serve well and fulfill her duty.

History

Pre-RP

Tio has a rather short history at this time. She has only recently been created for the purpose of serving in the Star Army of Yamatai. She has been trained after creation in the basics of her role as a powered armor pilot. She still has rather limited experience dealing with other people, though she is quite curious about such. Being only a few months old, her future and past are both ahead, not behind.

Service Record

YSS Asuka

Inoue Tio was originally assigned to the YSS Asuka as Infantry, under Kage Yaichiro-Taii as a Santo Hei.

Post Unfortunate Night Rescue Operation

Tio aided in this rescue operation using a Mindy M2-2A. The mission proved somewhat stressful to her as she aided in the recovery of a very badly mauled Mindy piloted by a Nekovalkyrja even younger than herself. She spent that night rather restlessly in her new quarters, still having not met her roommate before going to bed. Of course, considering that her listed roommate was promoted to officer's quarters before going to bed herself, Inoue would awake to find that she had a room to herself.

YSS Akigumo

Tio was transferred to the YSS Akigumo with the rest of the crew of the YSS Asuka in preparation for the offensive against Bizranko.

Fifth Expeditionary Fleet visit to Yamatai: Time for Answers

Inoue Tio worriedly waited in the ready room with the other power armor pilots formerly of the Asuka, ready to defend the 5th XF if the Emperor's fleet decided to fight. Fortunately the discussion ended peacefully with the replacement of Emperor Ketsuri Uesu with Empress Motoyoshi Katsuko. Since then she and the rest of the crew of the YSS Akigumo have been granted shore leave on Yamatai itself.

Skills

Communication

Tio is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, starships, power armor, and shuttles in both combat and non-combat conditions. She is fluent in Trade and Yamataian. She can speak and write both correctly and efficiently and can write reports, fill forms, issue orders under fire, etc. Being Nekovalkyrja she is also trained in her native telepathy.

Fighting & Fighting (Power Armor)

Tio received hand-to-hand combat training, followed up with a rigorous training program. She is skilled and experienced in combat both in Yamatai-like conditions and in zero-gravity, with and without weapons. Weapons she is trained in include energy pistols, knives, and power armor, rifles and grenades. Tio received much more training in piloting power armors than most other Star Army soldiers. She knows the ins and outs of a power armor system and is able to diagnose and solve minor to moderate system problems (electronic malfunctions, intake problems), and can perform rudimentary repairs (very basic) with proper tools. She can operate hand-controlled flight systems. She has a personal preference for the Aether Saber-Beam Rifle and the Mindy M2-2A.

Technology Operation

Tio is capable of operating any computer system that uses the Kessaku OS, found on all Star Army starships. She is proficient in entering and/or searching for information.

Mathematics

Tio received basic mathematics training, to including up to algebra and trigonometry. She has studied little beyond that, despite her curiosity, finding pure numbers boring without a specific use for them.

Physical

A trained Neko soldier, Tio was created already a skilled athlete, with significant strength and catlike agility. Her training for Infantry has only improved on that. She is skilled at swimming, diving, tumbling, climbing and most athletic activities.

Survival and Military

Tio has received basic instruction in survival techniques through her military training and the knowledge she was created with. She has done little to extend such knowledge though.

Maintenance and Repair

Tio has been studying to improve on her technical skills related to the care and repair of powered armor, in hopes of proving more useful outside of combat. She hopes in time to become a fully trained Powered Armor technician.
