History

Pre-RP

Isolde was originally born as a typical ground pounder in YE 17 and served in most of the subsequent wars that Yamatai has participated in. Meeting Niffleheim Valatea during the [Third Elysian War](#), they became fast friends and both took part in the assault on [Heavens](#). Their friendship continued into the [Fourth Elysian War](#) until Isolde being picked up for officer candidacy finally separated them in YE 23.

Following several years of training at the [Kyoto War College](#), she changed occupations to a starship-based command role and returned to the frontlines in the middle of the [First Mishhuvurthyar War](#). While serving aboard a variety of ships, Isolde saw several engagements during the war but did not gain experience as an [Executive Officer](#) until after the war ended in YE 30.

The [Second Mishhuvurthyar War](#) started rather suddenly though, and she again found herself in engagement after engagement. [Battle of Yamatai](#) near the end of the war actually reunited Isolde with her long lost friend. For her devotion to duty during the war, she was given command of her own ship in YE 35, and the new captain was keen on keeping her "Valor" close now through creative use of Star Army Personnel.

In YE 38, Isolde saw the beginning of the [Kuvexian War](#) on the horizon, and of course she requested to be in the thick of things once again. It was around this time that she took command of an [Urufu-Class Light Cruiser](#) named the YSS Skyfall with her dear friend as commander of the infantry complement aboard. Following a several shakedown runs to get her crew in sync with one another, her first major assignment was to participate in [operation_uifa](#) along with a variety of foreign nation allies.
