## Physical Characteristics

- Height: 7'2" (213 cm)
- Mass: 95 KG (210 lbs)
- Measurements:

**Build and Skin Color:** Bjorn is built like a brick wall with a hexagonal patterned navy blue metal body.

**Eyes and Facial Features:** Bjorn has an oval face that is completely smooth, the mouth is always closed with an opening on either side that have a purple glow that flickers with speech.

They has nothing to be placed as a nose but has sensors that allow them to process chemicals in the air.

Their face has a slit of clear plastic with their vision sensors inside that emit the same purple glow as their mouth.

**Ears:** Bjorn has no visible ears but has noise sensors in their head to let them listen to their surroundings.

**Hair Color and Style:** Bjorn has no fake hair and has the same hexagonal patterned metal around their head

**Distinguishing Features:** Bjorn has clear plastic snaking around his body that can glow red at Bjorn's option.

## Psychological Characteristics

**Personality:** Bjorn knows they were created for war and does not pretend to be anything else, they won't try and act nice just because someone is talking to them, they will be brunt and calculating to everyone he talks to and doesn't care how it effects the person he talks to.

He values a person's skills in war more than their skills anywhere else, unless it helps in a valuable ways to where they are, he respects those that prove themselves to him and will be slightly nicer to those people then the others that he has met.

- **Likes:** Fighting, heavy weapons, the smell of [Coffee](#) and the smell of tea.
- **Dislikes:** Cowards, fighting without fruitful end and having someone else help to repair him.
- **Goals:** Bjorn's only goal is to prove that he is a value to Star Army.

## History

### Family (or Creators)

A small robotics company, calls Deneric Industries.

## Pre-RP

Deneric Industries created a combat robot they nicknamed Bjorn as a gift to the Star Army, to be used as a prototype of what Deneric Industries could give and also as a combat AI that can be used in more than just Androids.

After Bjorn was gifted he was tested in different areas of Occupations to see what Bjorn could do, it was obvious that he was built for combat as his combat skills were great but in other areas he struggled as he could learn it but he was easily distracted with combat. After this testing was was then ready for deployment and just needed to find a ship he was allowed on.

## Skills

### Communications

Bjorn is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, starships, power armor, and shuttles in both combat and non-combat conditions. Bjorn is fluent in Trade (language) and (optionally) Yamataigo (邪馬台語). Bjorn can speak and write both correctly and efficiently and can write reports, fill forms, issue orders under fire, etc.

### Maintenance and Repair

Bjorn has the knowledge on how to repair his body, all Bjorn needs is a functioning arm and 'brain' undamaged to be able to repair the shell that houses Bjorn.

### Fighting

Bjorn received hand-to-hand combat training, followed up with a rigorous training program. Bjorn is skilled and experienced in combat both in Yamatai-like conditions and in zero-gravity, with and without weapons. Weapons Bjorn is trained in include energy pistols, knives, and power armor but Bjorn favours more heavy weapons to go into battle with.

### Physical

Bjorn's body is very flexible while also being tough, this allows him to move fast and do everything that a normal person could do while being metal.

## Technology Operation

Bjorn is capable of operating any computer system that uses the Kessaku OS, found on all Star Army starships. Bjorn is proficient in entering and/or searching for information. Bjorn can also connect to computers to download the data straight to the protect shell if nessicary.

## Chemistry

Bjorn's sensor's that allow for smell are very high quality and allow Bjorn to identify a lot of chemicals just from walking very close to the chemicals.

## Demolitions

Bjorn can identify, manufacture, handle and dispose of explosives. With the proper tools, Bjorn can detect and disarm enemy explosives as well.
