Melissiel's Body

Hair Color and Style: Melissiel is of the average height and weight for a patrician female angel except for her bust: which tends to make her slightly topheavy. Of course her skin is well cared for and clean with a golden Mediterranean tone to it. Her wings are of about average size, if a little larger (nature's way of compensating for the large bust?)

Facial features and Eye Color: As per her heritage, Mel has eastern European facial features that tend to be angular and slightly softer than usual, giving her a radiant but kind beauty. Her eyes are a slightly unusual teal color which just seems to add to her appearance greatly

Skin Color and Build: Melissiel has long thick golden blonde hair that descends down to about her hips. It's usually kept in a high (oriental style) ponytail when she's working but is just as often worn loose.

Distinguishing Features

White feathered wings as all elysians have

Melissiel's Personality

She's a good woman who has a kind heart that nurses compassion. Melissiel has a bit of a nasty temper when she gets riled up (Which is hard to do) but generally she tries to be friendly and nice to most people and doesn't generally hesitate to help when she has the ability to. Normally she's quite serene, levelheaded and calm in personality and doesn't have a problem with trying to help people, even if it means just using words and small gestures. She believes that everyone: regardless of ethnicity, affiliation, creed or appearance was deserving of both care and respect. The only ones that she does not extend this too is Mishhu because she's been told and made to believe they were only bloodthirsty beasts without conscience: ie Sociopaths.

While not as noticeable as in the majority of Elysian Patricians there is a certain amount of psychological baggage, which comes from being an Elysian. For one thing she remains strongly religious with faith in the Elysian God and the chauvinism which that entails (but which she keeps under control), as well as the typical Elysian arrogance - although this is almost always kept under wraps by her compassionate personality.

Likes and Dislikes

Likes: Oranges (she's absolutely nuts for anything Orange flavored), Theatre, Soothing music and children

Dislikes: Rude people, Sociopaths, watching people die

Goals

Personal: To be a mother one day. Professional: to save as many lives as she can.

Melissiel's History

Melissiel was originally born on Elysia between two military officers and as such would be well educated and raised to be both a woman and a warrior. But her kind heart didn't really want to go out in a concerted effort to take lives, and instead wanted to preserve them. Which was fine with her parents once they witnessed her natural hesitation to kill anything without reasonable cause. Of course she'd be sent to the best education possible because of their family's high Kleos. Time would pass without many major or special events outside of regular traditions and Mel would develop into a beautiful young woman with a talent for helping and healing people. Her kind personality and gentle hand were well known amongst her instructors and friends.

Melissiel's Skills

Communication

Mel is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, starships, power armor, and shuttles in both combat and non-combat conditions. Melissiel is fluent in English, Japanese and Seraphim. She can speak and write both correctly and efficiently and can write reports, fill forms, issue orders under fire, etc. As a bonus for being an Elysian, she is also capable of telepathic communication.

Fighting

She received hand-to-hand combat training, followed up with a rigorous training program. She is skilled and experienced in combat both in Elysia-like conditions and in zero-gravity, with and without weapons. Training would include rifles (energy and solid ammo), pistols, xiphos, phaelaes, aspis, and the antheodon armor.

Technology Operation

She is capable of operating any computer system that uses the Kessaku OS, found on all Star Army starships. She is proficient in entering and/or searching for information. Mel is also familiar with usage of elysian computer systems as well.

Mathematics

Melissiel has received basic mathematics training, to including up to algebra and trigonometry.

Medical

As a medical officer in training, Melissiel is highly specialized in this skill and exceeds the norm. She has studied medical texts, learned through first hand experience and through special training course. Thanks to this: Mel is familiar with elysian, neko and yamataian/nepleslian physiology and can treat all of these races.

Entertainment

Melissiel is a quite adept singer and likes to entertain people with her songs. Often times she can be found in a medbay just doing that to herself, sounding almost like a legendary siren. But this her only real skill at entertaining others and is specialized in this.

Art and Vocations

It's an important skill for her to know, or so she believes. It's part of her heritage and she's damn proud of it. Mel loves to both paint and sculpt pieces of artwork and has even sold a few pieces for a little extra income to supplement her military pay.
