# Character Description

## Appearance

Kuroko inhabits the body of a young adult [Minkan](#) who formerly very closely resembled her mother [Motoyoshi Tachiko](#), with the differences provided by an unknown father, but grew to more resemble the latter: especially as her hair began to take on a bluish hue as she matured. Kuroko is lithe and athletic, with long, straight blue-black hair with eye-level fringe, and colorless grey eyes. She has pale skin, with the typical Yamataian Japanese-mixed-with-Nordic features.

- Height: 165cm (5' 5")
- Weight: 55kg (125lb)
- Hair: Blue (in transition from black)
- Eyes: Grey

## Personality

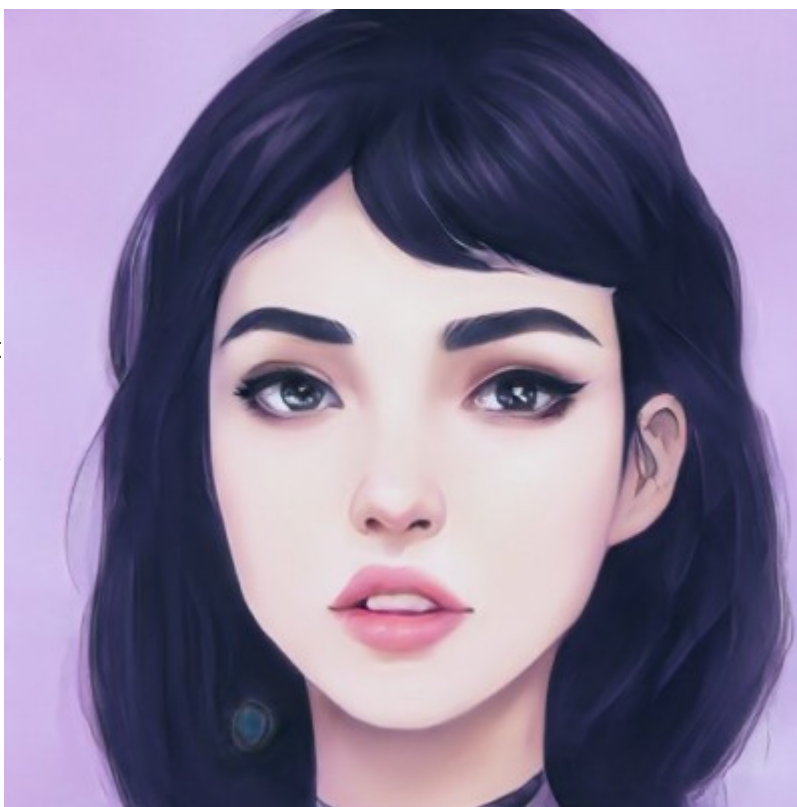

- 🧠 Personality Type: [ESTJ](#)
- Moe Archetype: [Hinedere](#) / [Kuudere](#) / [Utsudere](#)

Born a [Mishhuvurthyar](#), Kuroko struggles with the base personality and drives of one of their ilk. Her legal guardian, [Ketsurui-Motoyoshi Katsuko](#) has given special instructions that Kuroko be given a strict, intense indoctrination into the [Motoyoshi Clan Traditions and Philosophies](#), [Shintoism](#), and 🥋 [bushidō](#) in addition to the [Tsubomi](#) curriculum. Kuroko has internalized these values, and it seems to be working to temper her worst instincts.

Besides her [Mishhuvurthyar](#) basic nature and the education used to counter it, Kuroko is a detached, observant, calm girl with a passion for athletics (especially martial arts), art, and music. She is a good student, studious and conscientious, and highly disciplined and motivated. She is quiet until the point she is making a judgement, answering a question, or giving an order (all things she does often), and speaks articulately, with surprising depth and wisdom. She does not, however, waste breath on frivolous or superficial conversation.

## History and Relationship Notes

The [Mishhuvurthyar](#) egg that would become Kuroko was implanted sometime in [YE 29](#) prior to [her mother](#) entering cryostasis. Kuroko's original [Mishhuvurthyar](#) body was born sometime between then and 35日 9月 [YE 41](#) was in extended cryostasis<sup>1)</sup>. The circumstances of Kuroko's birth were immediately classified, and the hazy memories of the prior events redacted from [Tachiko's](#) memory, given she was not subject to the [Memory Backup Protection Act of YE 30](#) at the time. Kuroko was transferred out of her living but nonviable [Mishhuvurthyar](#) body and into a [Minkan](#) body that approximated her mental maturity of early teens in [Human](#) (Earth) years. The decision to make her a [Minkan](#) adolescent rather than a [Nekovalkyrja Youngling](#) was made on the grounds she should have a “normal” childhood to have the time to become accustomed to life in [Yamatai](#) and develop beyond her base [Mishhuvurthyar](#) tendencies.

[Ketsurui-Motoyoshi Katsuko](#), on receiving news of [Motoyoshi Tachiko's](#) recovery, and on her subsequent decision to bring her into [Motoyoshi](#) patronage, had the newly-transferred [Minkan](#) legally adopted by the [Clan](#), and sent to [Tsubomi](#) for education and socialization.

Kuroko initially believed herself to have been born in the [United Outer Colonies](#) in [YE 27](#), and that she lost her parents in the [Second Mishhuvurthyar War](#) when she was too young to remember them. As [Mishhuvurthyar](#) were not subject to the [Memory Backup Protection Act of YE 30](#), her memories had been redacted, appearing to include an amnesia-clouded childhood, before being sent to [Tsubomi](#) in [YE 41](#).

In [YE 42](#), Kuroko started [Kōtōgakkō, or Upper School](#). She continued to thrive academically and athletically, even as her lack of a past and unusual thoughts and abilities began making her question everything she had been taught. Her close relationship with her Clan-Brother, [Motoyoshi Eidan](#), led to his ideas giving Kuroko more reasons to question it all, as well as a few clues about where she should start looking<sup>2)</sup>.

Due to the events of [YE 44](#), [Motoyoshi Kuroko](#) left that year along with the [Motoyoshi Colonization Fleet](#)<sup>3)</sup>. Along with [Motoyoshi Eidan](#), [Motoyoshi Kuroko](#) was sent out ahead of the [Colonization Initiative Alliance fleet](#) to ensure their safety given the tumultuous climate after the terrorist attack on the [capitol dome](#)<sup>4)</sup>. They were accompanied by a select group of elite peers for [Eidan](#) to develop his leadership as they developed skills in an elite, unique educational environment<sup>5)</sup>. In [YE 45](#), Kuroko and the others, after exploring the planet YC-56K System and its planet Becurn in the [Kosuke Sector](#), were forced to leave due to the conflict between the [Cemlae](#) and [Mocaidins](#).

## Adulthood

The final stages of Kuroko's adolescence would be spent aboard the [Shiori](#), and by late [YE 45](#), she had all but finished her schooling at a university level due to the [Advanced Education Program](#) aboard. The [Minkan](#) shell that replaced her original [Mishhuvurthyar](#) body had matured, along with her mind and, along with [Motoyoshi Eidan](#) and the other prodigies, were given positions in the [Yugumo Merchant Spacy](#)<sup>6)</sup>. Her suspicions grew ever stronger that something wasn't right with the story she'd been told about what she couldn't remember.

- [Shiori and Evenstar: To a New Star](#)

## Motoyoshi Rising

Later in [YE 45](#), the group of young prodigies from the [ISS Shiori](#), Kuroko among them came aboard the [ISS Evenstar](#) (Yoi-no-Myōjō), the [Motoyoshi Clan](#)'s flagship, a massive [Tanya-Class Expeditionary Heavy Cruiser](#). To their surprise, their group, now christened the [Azure Legion](#), were to command the titanic vessel themselves, now commissioned in the [Yugumo Merchant Spacy](#).

Kuroko's Companion

Krakenmuffin	
KAIMON/Ascendant Companion	
	Most used projection is a floating, dark purple luminescent squid with neon-pink slots. It is often seen swimming around in the air above Kuroko's head. Kuroko has named her Companion Krakenmuffin. Krakenmuffin's personality is a cartoonishly exaggerated caricature of <a href="#">Motoyoshi-Ieyasu Taro</a> , making the drone somewhat gruff and confrontational, though level-headed and thoughtful, and extremely protective of Kuroko.
