## Numa Atsui In Roleplay

Numa Atsui is a [NPC](#) created by [Nashoba](#) and played by [Yuuki](#) and is currently commanding the [YSS Heitan](#).

## Physical Characteristics

Height: 5' 5" Mass: 145 lbs Measurements: 79-61-76cm (31-24-30 inches) Bra Size: 79 cm (A Cup)

**Facial Features and Eye Color:** Atsui's face is narrow, with strong cheekbones, a narrow nose and a strong jawline. Her eyebrows are a shade darker than her hair and she keeps them thin. Atsui has pale blue almond-shaped eyes.

**Hair Color and Style:** Atsui has straight auburn hair. She tends to keep it cut very short in a pixie style. She prefers it this way because she does not have to do more than wash it and towel dry. Also it does not get in her way when fighting or donning gear.

**Distinguishing Features:** Atsui has a genetic tattoo of the [Star Army Hinomaru](#) with a black stripe across it horizontally, and the names of her siblings in Kanji beneath it on her right arm.

## Psychological Characteristics

**Personality:** Atsui is a passionate person, a fact that has occasionally gotten her into trouble and cost her a few promotions. Her credo is "Work hard, play harder." She enjoys the freedom that being a squadron commander affords her. In this role results, not methods are what matters, and this suits her fine. When dealing with subordinates she can be brusque, but only because she does not want to coddle them. Atsui is not an easy person to get close to, there are fewer than ten people she calls true friends. This is due to her avoiding getting too close to people. Atsui is given to bouts of anger when she fails.

**Likes:** Atsui loves flying, fighting, fast cars, fast ships, strong drinks. Paradoxically she also enjoys relaxing with a good book with a nice glass of brandy.

**Dislikes:** bland food, tea, overcooked vegetables, Intel officers, snakes

**Goals:** To become the best fighter she can be, so she can protect the things she loves.

- Suzu 鈴 (*Sister*) [KIA-YE 23](#)
- Norio 法男 (*Brother*) [KIA-YE 23](#)

## History

### Pre-RP

Atsui was born in [YE 06 NH-1 Geshrin](#) in the city of Malifar in Jhuniata Prefecture on [Yamatai \(Planet\)](#). While she was too young to know what was happening, many of her extended family died in [Great Plague of YE 08](#). This event made her parents somewhat withdrawn for awhile. Atsui was an excellent student academically, but had occasional issues with deportment. In [YE 21](#) her older siblings enlisted in the newly formed [Star Army of Yamatai](#). Atsui loved reading the messages from her siblings about their life in the

service. With the outbreak of the [Fourth Elysian War](#) in [YE 23](#) Atsui's life would change forever when her family received word of the death of her siblings Suzu, and Norio. In memory of this Atsui had a had a tattoo put on her right arm.

In [YE 24](#) with the war still going on, upon graduation Atsui enlisted in the [Star Army of Yamatai](#), in part to avenge her siblings, but more important learn to protect her family and homeland. She did not get to see combat in the [Fourth Elysian War](#) because it ended while she was training. During training she found that she preferred Aerospace Craft to power armor and ground vehicles.

With the outbreak of the first [Mishhuvurthyar War](#) in [YE 26](#) Atsui continued working her way up through the enlisted ranks, and distinguishing herself time and again as a warrior and a pilot.

In [YE 28](#) Atsui at the recommendation of her commander was sent to the [Kyoto War College](#), upon returning to her unit she was promoted to the rank of [Shoi](#).

In [YE 29](#) Atsui due to the [Species Restriction Order of YE 29](#) transferred to a [NH-22C Yamataian](#) body rather than transfer to a [Nekovalkyrja](#) body. Many of her closest comrades opted to leave the service rather than submit to the decree. She saw their decision as a betrayal. She was promoted to [Chui](#) and given her own squadron to command.

[YE 30](#) Atsui was promoted to [Taii](#) and was in line to be placed in command of a [Irim-Class Heavy Gunship](#) however, after a particularly bad mission she got into a heated argument with the officer responsible for providing Intel. The argument escalated and she knocked out the Intel Officer with a spectacular right cross. Because this altercation occurred in front of other personnel the Commander had no choice but to discipline her and she was demoted. She was put on administrative duty, for six months.

[YE 31](#) Shortly after bring returned to flight status, the [Second Mishhuvurthyar War](#) broke out. Her squadron was upgraded to flying [Ke-V6-1B "Hayabusa" Starfighter](#), and they fought in several engagements against the [NMX](#). She requested several times to be put in charge of a squadron but her requests were denied.

Later in the year Astui was contacted by [Mikasa Sorano](#) regarding joining the [2XF](#) as Squadron Commander for the [21st Fighter Squadron](#). Atsui jumped at the chance to get back to her best calling.

[YE 33](#) After the [Battle of Yamatai](#) Atsui upgraded to the [Minkan](#) from her [NH-22C Yamataian](#) body.

- Atsui was in command of the [YSS Heitan](#) and its escorts on a mission to ferry a bunch of [Urufu-Class Light Cruiser](#), enroute the received word of an attack by the [NMX](#) on [Yamatai Star System](#), it a dangerous gamble Atsui transfers soldiers to the cruisers and takes the entire group to assist in the [Battle of Yamatai](#).

## YE 34

- In [YE 34](#) Atsui was given command of the [YSS Heitan](#), she accepted this on the condition that she could pick her successor for the [21st Squadron - Fighting Diamonds](#). She is now preparing to take the [YSS Heitan](#) into a massive engagement the 2XF is launching against the [NMX](#).
