## Physical Description

Though Hana wasn't born a Neko, nor a girl, she now inhabits a military-grade Nekovalkyrja body. Her body is one that was sold to her by the [On'nin Ikemen](#) - 隠人イケ面. It was quite expensive, one of the more costly bodies the Ikemen sell, as it is free of all of the dysfunctions the bodies will have present. In two rare instances, she has lost the ability to have inertial control and has fallen, but those were the only times in which the faultiness of the Ikemen product has shown itself.

She is now slim and lacks curves, whereas before she was quite a hefty man that had several facets of his [Human](#) body that couldn't properly fit into most clothing. Now, she fits into size small shirts, an A-cup bra, and size 0 pants, skirts, and dresses. She is just under five feet and weighs 90 pounds, with the typical three fingers and thumb of an NH-29. She has a typical narrow mouth, very angular and pointed face, with striking almond shaped light blue eyes that match her long, straight hair.

She has a tattoo on her left lower back that covers her serial number and manufacturer. It is of a blooming sakura flower with shading perfectly placed to cover up the once-descriptive information that was placed there.

## Personality

Saku Hana has nuances about her that have been resolved with the change to a new body. For instance, she was once moody and temperamental. No more. She was once capable of insult and that, too, is no more. She was once a very different person. That person is brought out only infrequently now that she has a new body and a new way of life.

When a human male, Saku Hana got along with her parents quite well. So much so that they would lavishly dote on her and treat her as a valued member of their family. Despite this, she would sometimes show them her angry, easy-to-upset side. They let the storms rage and pass without incident, though.

Now, she is a happy-go-lucky young-looking and youthfully spirited Neko girl with the ability to have to her a charm and thoughtfulness, though she can grow quite stern and serious when discussing matters of importance.

## History

Saku Hana was born in [YE 08](#) in the city of Kyoto, [Yamatai \(Planet\)](#) to a male, human body. Her parents were well-off and enjoyed the finer things in life, as she did. So when she asked for a favor when she was 30, they obliged. The favor was to get a new, Neko body and the price was high. They were happy to help her transfer bodies by way of the Ikemen that sold semi-functional Neko bodies for high prices. She changed her name from Sukayama Hirochi II to Saku Hana, meaning *blooming flower*.

As Hana's parents were in the profitable business of working for bank conglomerates, they set aside quite a bit for Hana when they died. Which happened in a tragic motorway accident a year after she had come into her new body. Hana took it out of stocks and spent the money quickly, though, and soon found herself needing fast cash to stay afloat. She couldn't do much in the way of jobs and found a directory of places hiring. The [Anbruch](#) stood out to her and she followed that lead, reaching out to [Tanja Dunst](#).

She was aboard the Wayward for a time until she became a citizen of Nepleslia.
