Physical Description

- Height: 4'7"
- Mass: 110 Lbs.
- Measurements: 29A-23-41

In plain terms, Sassa Hall makes for a vibrant visage. She wears her hair in a set of big, multicolored [pigtailed](#). The left side of her hair has a bright [cyan](#) hue, while conversely, the right side of her hair has a bright [magenta](#) hue. In addition, she has large, bright [yellow](#) eyes, which act in sharp contrast to the two colors in her hair. Her skin is of a [creamy-tan](#) shade, complemented by plump, [pink-violet](#) lips, and dark-shaded eyebrows, with a particularly [dramatic](#)¹⁾ arch. Sassa's features are set within an ovular facial profile, with a rounded chin, a balanced forehead and jawline, and slightly wide cheekbones. She also has pointed and [elf-like ears](#), rather than the typical Neko-style ones.

Her body, although modest in height is especially feminine and pear-shaped. In spite of her elongated legs, which measure *exactly* $\frac{2}{3}$ of her full height, she has particularly thick, chunky and *beefy*-looking thighs, In like manner, her *derrière* has the same protrusive thickness and hefty mass, as well. Conversely, Sassa's bosom is quite modest, but not completely flat by most interpretations. Her arms are only slightly toned, but they are well-muscled and visibly *thick*.

Personality

In contrast with her colorful appearance, Sassa Hall is a Nekovalkyrja of a serene, polite, and disciplined temperament. She is rarely pushed to anger, and even then, she maintains a high level of restraint.

Sassa is motivated primarily by a pursuit of knowledge, clarity, and perfection. In essence, she seeks to comprehend all aspects of life, even those which are associated with her enemies. However, her desire to appreciate certain things only goes so far. Sassa pursues understanding so that she might better anticipate and predict the actions of people (her enemies), rather than identifying herself with them. Being an artist herself, this tendency manifests primarily within her passion for art, literature, and the humanities.

History

Sassa Hall was created in [YE 40](#), within a [Type 30 Mass Cloning Facility](#) on a [Minori-Class Hospital Ship](#), embedded within the Medical and Rescue Group of the [First Expeditionary Fleet](#). By technicality, Sassa breathed her first breath of air while the ship was still in hyperspace. Therefore, she has no home planet. However, that hardly makes her special among Nekovalkyrja and other synthetic beings.

In like manner, she underwent socialization training and [standard basic training](#) on board the *YSS Foundation*, a *Henry Chen*-class [Training Ship](#) embedded within the Training Support Group of the First Expeditionary Fleet.

Sassa's first assignment after basic was the [YSS Hana](#). However, she later on opted to undergo Space Infantry Training. Accordingly, she was assigned back to the *YSS Foundation* to complete it.

In [YE 45.1](#), Sassa was promoted to the rank of [Nitô Hei](#). In the same day, she was assigned to [Fort Nozomi](#) on [Gashmere](#).
