Miscellaneous Info

Personality Quirks

Sigurd has a cool demeanor. He seems pleasant and courteous, but rarely offers more than the shadow of a smile: he is never moved to mirth. Sigurd can discuss at length any technical details that he has

studied, but is somewhat impaired in more mundane topics of discussion.

Sigurd is an android, and while sentient, he has no emotion.

Note

Sigurd is subserviant, but hardly stupidly so. He follows the proper chain of command and can refuse orders from enlisted crewmembers if he judges them inadequate. He will give strong consideration to warrant officers and will obey commissioned officers without fail, though priority rests with his assigned ship's executive officer, and then the commanding officer (i.e.: Sigurd obeys to Taii Kotori and Chui Suzuka over Taisho Yui).
