History

Family (or Creators)

Valesti was created by the Star Army as one of the first batch of [NH-27 Nekovalkyrja](#) in [YE 27](#).

Pre-RP

After training, Tsukisaki served aboard an originally unnamed [Yui-class Scout](#) as a [Starship Operator](#) with some skills in science and piloting. She worked her way up the ranks with tireless devotion and a nearly spotless record, although she had no exceptional marks during her early career. After surviving the [First Mishhuvurthyar War](#) the repaired and refitted ship was christened the *YSS Zanbaku*. It did not fare as well in the [Second Mishhuvurthyar War](#), eventually being damaged beyond repair. As one of the surviving veterans of the ship, she was gifted a [Yui Scout Ceremonial Sword](#) that she treasures and carries with her whenever appropriate. Continuing her career progress, she served as [Star Army First Officer](#) on the [Rikei-Class Science Vessel](#) *YSS Paulownia* before being given her first command position, as captain of the [YSS Heartbreaker](#). This recently recovered and refitted ship has been out of service for nearly six years, and her experience on the bridge of a similar ship from that era helped lead to her appointment.
