Physical Description

Possessing light magenta skin, bright cyan eyes, dark violet lips and light blue-white shaded hair, Wakaba Yukina has a colorful and vivid visage. Her body shape does not deviate too radically from that of the typical hourglass-shaped Nekovalkyrja, apart from significantly larger than normal breasts, thighs, and buttocks, with sleek musculature that belies her physical strength. However, she has very long legs for her height, often matching the length of those belonging to much taller Nekovalkyrja. In addition, broad, flowing hips which are much wider than her shoulders, lending her silhouette quite a feminine profile.

Yukina possesses hairless Neko-style ears on both sides of her head, in the same location where normal human ears would be located. She does not have a tail.

Yukina has an oval-shaped facial profile, presenting perfectly symmetrical features and big, wide set eyes. Her lips possess a dainty pout and her nose is slightly upturned, but delicate nevertheless. She most often styles her hair in big, [sharp curls](#), normally worn down.

Personality

- Primal Zodiac Personality Reference: [Moose](#)

Wakaba Yukina is a natural empath. In stark contrast with her body's vivid coloration, she carries herself in a demure and selfless manner. She enjoys dedicating herself to helping others and in spite of her somewhat quiet manner, is very much a social butterfly. Yukina also takes satisfaction in keeping a clean, beautiful, and comfortable environment, often taking the initiative in this regard. Beautifying others is also an interest of hers, to such an extent that she runs a free beauty and hair salon out of her cabin for crew members to visit when in need of grooming, hair styling, or professional makeup application.

However, her empathy belies a bloodthirsty and aggressive manner in combat. When engaging with enemies of Yamatai, her empathy can veer towards savagery with the flip of a switch, often surprising or even terrifying her peers and comrades.

History

Created by the KAMI of the YSS *Wakaba* in YE 43 just before the vessel was lost in an anomaly, Wakaba Yukina is one of youngest Sprites on the *Wakaba*, but is no less embraced by her sisters. Programmed as a Caretaker Sprite, Yukina took to her duties with an instinctive grace. However, the entrapment of the *Wakaba* within a gravity anomaly demanded far more of Yukina than she had ever given. When the *Wakaba* was boarded by rogue NMX raiders in late YE 43, Yukina was one of those who saw to the

protection and transport of the wounded during a critical juncture in the battle, playing a small part in a collaborative effort that saved many lives.

However, with the *Wakaba's* extended disappearance from the Kikyo Sector, it would not be long before yet more was asked of her...
