Always working to develop additional products and services to improve the human condition, [Advancer Enterprises](#) has the following under development. All are in various states of completion or abandoned.

## Cybernetics Research

- Defensive Nanite System - a subdermal layer of nanites and a non-newtonian fluid that hardens when a charge is applied, which the nanites do in response to damage.
- Neural Reaction Booster - an enhancement to the body's nervous system that boosts its reflexes to a massive degree, but causes a build up of neural 'static' that limits operational time.
- Wetware Plate - wetware defensive plates implanted underneath the skin to protect the user from damage
- Wetware Propulsion - Implanted inertial control technology
- Limiter - special system that shuts off the body and mind's mental limiters meant to prevent damage. Allows the user to call on more of their physical capabilities but damages the body in the process.
- Contraceptive Implant
- Long Term Medical Implant clone
- anti-parasite implant
- Nanocomposite Blade

## Quality of Life

- Rejuvenation - A medical treatment that reduces the physical age of the user to their equivalent of 18, or whichever they wish.
- [Megumi Mobility Skin](#) - A specially developed skintight suit, intended to be worn under Power Armor or unpowered armor or space suits. Combines an all over layer of nanomuscle to boost strength to levels approaching that of a Person in Power Armor with various life support functionalities such as waste recycling.
- Zhenren Children: "While the Zhenren Upgrade Package is the first step to elevating humanity to pull its own weight, we must find a way to sustain it with children with capable of the same with minimum augmentations." Ito Linyu, Advancer Enterprises Researcher

## Pharma

- Anti-Kaserine Vaccine
- [Advancer Pharmaceuticals](#)

## Biotechnology

- [synthetic\\_blood](#) (highly oxygenated to allow liquid breathing/transport more oxygen for individuals)
- [nanite\\_fluid](#) thicker wannabe neko blood
- [cyto\\_nanites](#) (oxygen producing nanites similar to cyto bacteria)
