About the A3500

The A3500 is built with a frame of [Osmiridium](#), and covered in [Durandium Alloy](#) plating. The A3500 consists of two sections. The main body and the base of the drone. There is a connecting joint that allows the main body to rotate up to 360 degrees.

The A3500 design gives the drone the durability that it needs in the performance of its duties.

It does not include the motor units.
