

EM-K4-P3300 Anti-Gravity Units

Emrys Industries

A Tamahagane Company

The EM-K4-P3300 Anti-Gravity Units was developed for the [EM-K4 "Zephyr" Air Car](#). It became available in [YE 33](#).

Details

Manufacturer: [Emrys Industries](#)

Nomenclature: EM-K4-P3300

Type: Anti-Gravity

Class: Propulsion

Designer: Emrys Industries R&D section.

About the EM-K4-P3300

The EM-K4-P3300 is a paired anti-gravity generator array. Each array consists of four anti-gravity generators. This provides a measure of redundancy in the array and allows the array to make micro adjustments as needed.

Each pair are synchronized with the other units. In each pair one generator array is dedicated to lift, and the other to propulsion. In the event of damage or failure of the life array the propulsion array will switch to lift.
