

# Frontier Industrial Mining

Frontier Industrial Mining (FI) is a commercial mining company that operates primarily throughout uninhabited systems located within Yamataian space. The company is based upon [White Harbor Station](#) in the [Anisa System](#) System and is owned by the [Murasaki Clan](#).

[△ MURASAKI KEIRETSU SUBSIDIARY](#)

Frontier Industrial Mining is the deep-space mining and mineral resource procurement division of the [Murasaki Keiretsu](#).

The *Senmu* (Executive Director) of the company is Koyanagi Naizen.

## History

Formed BYE 95, Frontier Industrial mining is the second branch of the [Murasaki Keiretsu](#) and with its establishment so did the Murasaki Keiretsu itself also come into existence. Whilst not on the same scale as the [Trinary Star Shipping](#), the personnel of Frontier Industrial Mining have many decades of experience in mining hostile planets, asteroid belts and gas giants for a variety of mineral resources and precious elementals which are generally too difficult or time consuming to acquire by more recent developments in aether-matter conversion.

Previously, the majority of the companies acquired resources were sold to the [Star Army of Yamatai](#) for use in construction projects upon [Hoshi no Iori](#) – with its destruction, most of these resources are now planned for the use of the Murasaki Keiretsu's new [tech](#) development and [shipbuilding](#) divisions.

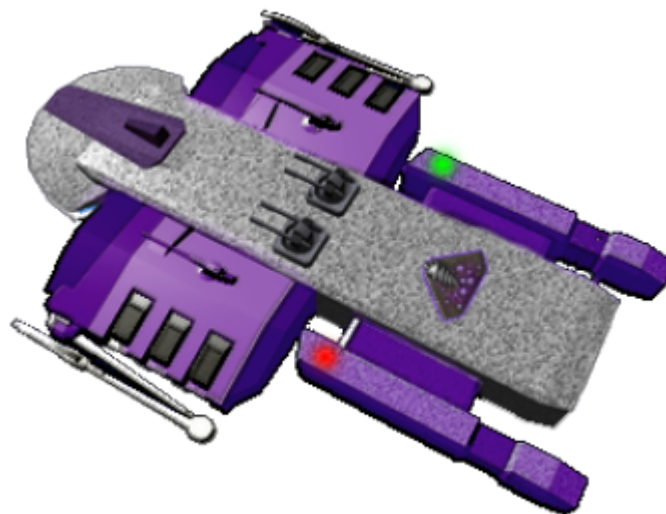

## Frontier Industrial Mining Company Fleet

The Frontier Industrial Mining company operates a fleet of ships which operate in regions throughout

Yamataian space. Most vessels will spend a period of time acquiring mineral resources until the ship reaches full capacity, after which it will return to [White Harbor](#) to off-load its cargo and for routine maintenance if such is required. Presently, the vast majority of these ships have been manufactured by other organizations unrelated to the [Murasaki Keiretsu](#).

The following is a list of all starships owned and operated by Frontier Industrial Mining. Smaller support vessels such as shuttles are not included within this list.
