

# Geshrinari Fabrication Area

Fabrication areas are typically only found on larger [Geshrinari Shipyards](#) vessels and installations. They are filled with state of the art manufacturing tools. Lathes, drill presses, metal bending fabrication machines, metal and polymer extrusion systems are primary items found. A printed circuit board manufacturing unit is also supplied as well as bins with raw material, common parts etc line one of the walls. Hand tools and diagnostic equipment are stored in locking cabinets to keep them in place.

There is a single [standard ship's door](#) which is kept locked at all times, and there is ceiling mounted lighting, as well as [Ge-Y1-E3104 - Automatic Fire Suppression System](#) dispersal nozzles through out the suite. There is a [Ge-Y1-E3103 - Intercom System](#) station next to each door way. There is a [console](#) for controlling the automatic units.
