

RDRS Ge-L7-2a - Ekitai-Class Liquid Freighter Ship

The *Ge-L7-2a* is a redesigned [Ge-L7-1a Ekitai-Class Liquid Freighter Ship](#) vessel meant to assist during disaster recovery operations, and it is part of the [Rapid Disaster Response Service](#) line of products.

History

This variant was designed during the creation of the [Rapid Disaster Response Service](#) line of products. It went into production in [YE 42](#).

Description

This is a variant of the [Ge-L7-1a Ekitai-Class Liquid Freighter Ship](#). It has been preconfigured to fit the needs of the RDRS. This version of the Ekitai is configured to carry up to 2.5 billion liters of liquids. It also has [Emrys Emergency Rations](#) in the aft hold sections.

Mission Specialization

In addition to delivering potable water and food to disaster relief areas, the *Ekitai* can be deployed to deal with fires. Its payload of liquids can be sprayed out by nozzles to fight fires, or it can be dumped in one large mass or in small amounts into an area in an emergency.

Appearance

Like the *Ge-L7-1a*, after which the *Ge-L7-2a* was designed, the Ekitai has two manned sections in the forward and aft. The fore section is shaped vaguely like a tear-drop. Four long ovoid structures run from the fore section to the aft, mounted to four braces which connect the fore and aft sections. The ovoid structures are the liquid tanks. The aft section of the ship has two wings on either side, with two [turbo-plasma drives](#) attached to each wing.

Statistics and Performance

See the statistics for the [Ge-L7-1a Ekitai-Class Liquid Freighter Ship](#) for further details on ship statistics, layouts and other details not covered here.

General

General Statistics for the Ge-L7-2a	
Year Introduced	YE 42
Class/Nomenclature	Ge-L7-2a
Designers	Rapid Disaster Response Service
Manufacturer	Geshrinari Shipyards
Pricing	300,000

Passengers

Crew: 20 are recommended, 15 are required. The cabins are located on Deck Four. Androids: 40 [EM-J2-1a Geboku Android \(Basic\)](#).

Dimensions

- Length: 800 meters (2,624 feet)
- Width: 380 meters (1,246 feet)
- Height: 50 meters (164 feet)
- Decks: 12 (4 meters each)
