

# Kagayaki - Diva Dots

Manufacturer: [Kagayaki Cosmetics](#)

Diva dots are a fun accessory to add to your club look. Diva dots are small round plastic nodules, ranging from .125 to .25 inches. In each dot is a small solar cell, and a small LED. Once the solar cell has absorbed enough ambient light, the LED will flash off and on. Diva dots can be used individually, or in a string. Depending on how they are stringed the LEDs will either all flash at the same time, or in sequence. Diva dots can be applied to your skin or your clothes with the water soluble adhesive supplied. Diva Dots are also reusable. Simple wipe them clean of any residue and reuse.
