

Origin Mart, Francia

Origin's retail arm, [Origin mart](#), has multiple locations throughout the galaxy, including at least one on each of the major planets, [Nepleslia](#) and [Yamatai](#). The newest one is, however, being established on the Nepleslian colonial city known as [Francia City](#).

Facilities

The Origin mart in Francia City is currently around 20,000 square feet indoors, with an extra 4,000 square feet of covered and semi-covered outdoor space. The parking lot has room for 100 cars, and there is an attached vehicle sales lot with room for 30 vehicles in front, with space for up to twenty aircraft in the back, split by a four-bay automotive repair shop with a single-bay hangar behind it for aircraft repair. Behind the whole facility is a small airstrip that can handle light starships, shuttles, and short-takeoff aircraft such as light sport planes and certain types of medium cargo craft.

Departments

Origin Mart Francia is set up just like any other [Origin Mart](#), and sells everything available from Origin, though, being a smaller location, may not have larger or more sensitive items on-site, and they will have to be ordered in.
