

Shimizu Zaibatsu

The Zaibatsu was formed on the Winter Solstice of the Yamatai calendar of [YE 44](#). It oversees the corporate interests of the Shimizu Clan.

About the Shimizu Zaibatsu

Under the direction of the Shimizu Clan headed by Princess Taisho [Shimizu-Motoyoshi Akina](#) ([清水本吉明菜](#)) ([清水本吉明菜](#)), the company was formed in [YE 29](#) as Shimizu Advanced Space Industries. The primary focus of business was the [Bard Cluster](#). A formal headquarters was being constructed on [Taiie](#) when the planet was destroyed by the advancing [SMX](#) forces. The [Taiie Nebula](#) is all that remains of the original plans which involved a formal celebration of power armor games to herald in the new complex.

In [YE 30](#), the company relocated headquarters to a rented space in [Kyoto](#). It began design and then production of equipment (mostly survival shelters) for the [Star Army of Yamatai](#). The widely used military and civilian shelters became an ubiquitous item in most military and civilian spacecraft in the Empire.

After years of quietly making a few products, the company expanded further to include such branches as: research and development, engineering, information systems, and the prospective businesses.

On the Winter Solstice in [YE 44](#), the Shimizuu Zaibatsu was created to oversee the expansion and rollout of a different range of products and services.
