

Simmon Odor Munchers

Nepleslians tend to sweat. Sweat tends not to smell nice. Yamataian companies saw their chance here, and released the most effective deodorant on the market. Odor munchers consist of specially designed nanomachines that break apart the chemicals and bacteria that cause body odor and is provided in the form of a spreadable cream.

Variants

Simmon Odor munchers: Oral Application

Mouth wash, similar nanomachines, and provided in the form of a mint-flavored blue gel-like liquid. So far there is only one flavor, but they are planning more.

Simmon Odour Munchers: Scented

A relatively recent product, the scented odor munchers come in six scents: Old spice, Mint, Essence of Maleness, Hunter, Musk, and Bourbon. It is a liquid as opposed to a solid, and is supposed to be splashed on. The malodorous chemicals are converted into nicer scents by the nanomachines.

There is a feminine line too, but it has only one scent "Generic floral." Simmon recognizes that most Nepleslians are male.
