

Styrling Silver Special .45 Caliber

Inspired by the classic look and feel of the [.45 Zen Armaments](#), Foster Kees Styrling began work on his own version. The weapon had to be sexy, tight and pack a punch, just like the previous weapon, and outperform it in as many ways as possible. The result was the Styrling Silver Special, or SSHG, is a highly reliable .45 caliber handgun that features stylish and clever design in a smaller package than the ZA. While it does have a slightly smaller magazine size, the weapon is also appreciably lighter and suffers much less from muzzle climb.

Weapon Specifications

Nomenclature Information

Designer: Foster Kees Styrling Manufacturer: [Styrling Vervaardiging](#) Name: Styrling Silver Special .45 Caliber (Sv-SSHG-01a) Type: Short Recoil Operation Handgun Role: Handgun Length: 6.8 inches **Barrel Length:** 6 inches Mass: 2.12 lbs **ROF:** 120 RPM

Appearance

Pistol Comes In Two-Tone and Gunmetal Black

Discharge Information

Projection/ammo type: .45 Caliber Rounds

Firing Mechanism

Short Recoil Action

Short recoil operation differs from long recoil operation in that the barrel and bolt recoil only a short distance before they unlock and separate. The barrel stops quickly, and the bolt continues rearwards, compressing the recoil spring and performing the other actions of cycling. During the last portion of its forward travel, the bolt locks into the barrel and pushes the barrel back into battery. Pistols almost universally work this way.

Ammunition Description

Caliber: .45 Effective Range 240 feet (73.1 meters) Maximum Range: 480 feet (146.2 meters) Muzzle Velocity: 800 ft/s (244 m/s) Muzzle Blast: Bright yellow flash when exiting barrel Firing Mode: Semi-automatic Recoil: Light/Moderate. Though substantial for a handgun, a compensator near the exit of the gun cuts down on the muzzle climb.

.45 Silver Special

Visual Description: Lightweight, copper coated rounds with round tip. Set in a brass casing. **Ammo:** 8 per magazine, 1 in chamber **Damage Description:** High velocity round does not cause as severe damage to soft targets as hollow point rounds, but it packs significant punch. Typically deep and fairly wide puncture wounds, though exit wounds are very rare.

Damage ratings:

- [DRv2](#) Personnel 2
- [DRv3](#) Tier 1

Weapon Mechanisms

Safety: Mechanism on the back of the handle makes the weapon unable to fire unless pushed all the way in. **Fire Mode Selector:** None, Semi-auto only. **Weapon Sight:** Standard pistol sights. **Attachment Hard Points:** None.

Other

Field Maintenance Procedure: Wipe and clean after every mission, taking care to scrub the barrel down and all moving parts.
