Designer	Yugumo Corporation , National Bank of Yamatai
Nomenclature	Type 45
Manufacturer	Yugumo Corporation
Fielded by	Yugumo Corporation , Yugumo Merchant Spacy , Yamatai Star Empire
Availability	Mass Production

History and Background

In [YE 45](#), the [Yugumo Corporation](#) partnered with the [National Bank of Yamatai](#) to design an automated banking booth so that customers could access banking services on space stations or starships.

Function and Design

The automated banking booth has a space-efficient design, fitting comfortably within the starship's passenger or crew deck. It is easily recognizable with the [National Bank of Yamatai](#) logo prominently displayed, ensuring it catches the eye of users. The booth is equipped with a [volumetric](#) privacy screen for privacy during transactions.

Usage

Travelers and crew members can access their [National Bank of Yamatai](#) accounts by inputting their account details and using a secure [PANTHEON](#) authentication method, or a biometric scan. This grants them access to account balances, transaction history, and other account-related details. The booth utilizes the [KAIMON SYNC/PANTHEON connection module](#) to securely connect to the bank to process transactions using the [KS Card Reader](#) and provide services to their customers.

Funds Transfer

Users can initiate funds transfers between their [National Bank of Yamatai](#) accounts, enabling them to manage their finances while in transit. They can send money to family members, and business associates, or make payments for onboard expenses. They can also reload and manage the [KS Card](#) they were issued. The machine is even capable of issuing replacement cards.

Deposits and Withdrawals

The booth supports both cash deposits and withdrawals in various printed denominations (including [Printed Bellflower Notes](#), accommodating the financial needs of passengers and crew members. Users can deposit earnings or withdraw cash for immediate expenses.

Currency Exchange

Travelers have the option to exchange other currencies on the [International Currency Exchange](#) for [KS](#), the official currency of the [Yamatai Star Empire](#), right at the booth. This service ensures easy access to local currency for onboard spending or other currencies for traveling.

Loan Applications

Users can initiate the loan application process for personal and business loans. They can input basic information and upload necessary documents, receiving preliminary loan approval or further instructions.

Account Management

Users can modify their account settings, update contact information, and set up account alerts and notifications for real-time updates on financial activities.

Customer Support

In case of any issues or inquiries, users can access a remote customer support agent or request assistance from an onboard banking representative in person or through a secured video call feature within the booth.
