

AAF Tool Kit

An infantry-carried kit with tools to complete necessary field repairs upon Vehicles and Powered Armor that was developed in AF 260 ([YE 32](#)).

Appearance

A container about 30 centimeters (~12 inches) long, 20 centimeters (~8 inches) wide, and 15 centimeters (~6 inches) thick, the AAF Tool Kit is constructed from a titanium framed covered by a black, durable plastic shell. It comes equipped with a military-spring, cushioned handle and metallic locking clasps. The interior of the case is padded with a soft foam-like cushioning that is used to protect the tools inside from damage done by hard travel (bumps, tumbles, etc.)

Contents

- Adjustable Spanner¹⁾
