# Abwehran Emergency Med-kit

Designed in AF 260 (YE 32), the Emergency Med-kit is a small first aid kit in a metallic case. The case is a dull cyan color with an orange cross on the front of it. A black tab is located on the top (on both sides) and allows the user to depress it and pull the top of the case off entirely. This is a one-use kit used in case of emergencies and can often be found in vehicles, aircraft, and critical locations on board space craft.
