

Abwehran Escort/Strike Craft Armor

Following the same principles as the original Tri-Layer Armor system, this improved version includes materials found by the knowledge provided by [CSEIA](#). But unlike the original design, Escort/Strike Craft Armor is made only of small space vessels and strike craft, not planetary vehicles.

The outer most layer is forged from [Durandium](#), a light-weight metal brought to the Abwehrans by the [CSEIA](#) scientists. This is combined with the second layer of the usual tungsten-ceramic composite, which is still used for its efficient defense versus heat-based weaponry, and a final layer of the new Durandium.

Armor Type: Medium (0.8 Modifier)

Effective Damage Rating:

- Light Strike Craft: $20 \text{ Armor SP} * 0.8 = 16 \text{ Armor SP}$
- Heavy Strike Craft: $25 \text{ Armor SP} * 0.8 = 20 \text{ Armor SP}$
- Frigates: $10 \text{ Ship SP} * 0.8 = 8 \text{ Ship SP}$
- Destroyers: $20 \text{ Ship SP} * 0.8 = 16 \text{ Ship SP}$
