

Ion Cannon

:!:This technology is obsolete as of YE 32 or the Second Quarter of 260 AF:!:

Using nearly the same technology as the [Ion Engine](#), the Ion Cannon enhances the destructive forces of ionized hydrogen atoms by using a specifically designed focusing mechanism. It is the most powerful energy weapon in the Abwehran arsenal with the ability to even penetrate some shield systems and most armors. The intensity of the beam dissipates the farther the target is from the cannon.

Primary Purpose: Anti-ship Battery

Secondary Purpose: Clearing hazardous obstacles

Damage: 4 SDR

Range: Maximum effective range is 20,000 kilometers

Rate of Fire: One Stream per 5 minutes

Payload 100 per [Ion Coil](#)
