

Saal Sou (Antiviral)

The Saal Sou was developed by the [Otâmovi Wiy Jael \(Silver Moon Sect\)](#) for use by members of the [Poku Saeruo Degonjo](#) in 739 CY [YE 21](#). It is for use protecting the [Poku'vonai](#) from known viruses by inoculation. It is updated periodically to ensure currency. This practice started after [537 CY The Weakening](#) which decimated the clan.

Saal Sou is only released to medically trained personnel, and is dispensed in auto-injector ampules. One ampule is sufficient for any adult member. Typical reaction to the inoculation is feeling unwell for a day or two.
