

HS-MH3-SS1-S757/0 Anoka Wotanu'pa Stako (Exo-Skel Defense Shield)

The HS-MH3-SS1-S757/0 Anoka Wotanu'pa Stako was developed for use by the [Matu'dahoka \(Battle Bear\) Stako Yanuto](#) and became available in [757 CY](#) or [YE 38](#).

About the Anoka Wotanu'pa Stako

The defense shields generate a protective barrier around whatever they are installed on. They function just like the [HS-SS2-S720/00 Anoka Wotanu'pa \(Defense Shield\)](#) except they are designed for the [Stako Yanuto \(Exo-Skel\)](#) and are powered by its generator.

General

- Class: Defense - [Stako Yanuto \(Exo-Skel\)](#)
- Nomenclature: HS-MH3-SS1-S757/0
- Type: Shield
- Designers: [Otâmovi Wiy Jael \(Silver Moon Sect\)](#)
- Manufacturer: [Wotanu Abokatinka Poku \(Clan Defense Fleet\)](#)

Damage Rating

- [Shield level](#): Advanced - 0.8 x Base Structural Points
- 14 Threshold 4

Details

The system consists of two field generators mounted on the shoulder of the [Stako Yanuto \(Exo-Skel\)](#). If one of the generators is damaged the shield can still be used, but the strength is reduced by half.

The shield can be operated either by directly powering from the [Stako Yanuto \(Exo-Skel\)](#), or charging the units and then running off the capacitors.

Direct Power

When running directly off the power, the [Matu'dahoka \(Battle Bear\) Stako Yanuto](#) must disable the two [HS-MH3-W75401 Sumanâ-a Rotyka \(Fusion Cannon\)](#).

Stored Power

Alternatively, the shield high-efficiency capacitors can be charged and then used to supply the shield. The capacitors have enough power to sustain the shield for five minutes of continuous operation.
