

LSDF Servant Galley

Designed to be used by servants aboard LSDF ships, and in installations, the Servant Galley is designed to be manned by service personnel for the purpose of the preparation of food to be delivered to individuals on an order-by-order basis, and is also intended to provide food for service personnel present at the assignment location. These galleys are well equipped with the full scope of Lorath kitchen technology, allowing for servant personnel to be able to produce large quantities and small quantities of food with rapid efficiency and quality.
